

SWINDLED THE LADIES.

A Slick Youth Arrested at New Haven.

HE INCURRED BIG BOARD BILLS.

succeeded Two Society Girls of New York Out of Large Amounts and Paid an Account at the Holland—Swindled a Lady Artist at the Buckingham.

NEW YORK, Nov. 18.—Arthur Blair Moody of New Haven has been arrested in that city. Moody is now out on bail and is fighting the attempt to extradite him to New York. He is 28 years old and comes of a good family. His father is in the insurance business in New Haven, and his mother is a doctor. Moody stopped for a long time at the Holland House and cut quite a dash. When he left the Holland, he was \$1,100 in debt to Proprietor Baumann for his board. Moody happened to meet the Rev. Dr. De Leon Nicholl, who took a fancy to him and introduced him to Miss Mary Van Buren Vanderpool, who in turn introduced him to her friend, Miss Rosamond H. Owen. Both ladies hold high positions in New York society. As soon as Moody felt that he had gained the confidence of the women, he dined them at the Holland House. There, it is alleged, he unfolded a great mining scheme.

Miss Owen took to it and gave Moody \$5,000. That was in March last. On July 15 Moody went to Miss Owen and said that \$1,000 more was needed, and she gave him a consolidated 6 per cent gold bond of the St. Paul, Minneapolis and Manitoba railroad, market value \$1,175. She told Moody to dispose of it and return the \$175 to her. He gave the bond to Proprietor Baumann of the Holland House for a board bill of \$1,170. Moody never redeemed it, and it was sold. He did not return the \$175 to Miss Owen. Later, in July, Moody went to Miss Vanderpool and told her of another splendid opportunity for making money. Miss Vanderpool says she gave Moody a \$1,000 United States gold bond without getting any receipt or security for it, and she has not since heard of it.

Meantime Moody, at the Buckingham hotel, met Miss Ellis Rowen, an artist in water colors from Australia. She was also impressed with Moody and showed him a set of 150 water color paintings of the Flora of Australia, which she said was worth £3,000. Moody broached his latest scheme to the artist, and got \$150 from her on the security of 50 shares of the stock of his company. Then he wanted more money for the scheme and she let him take the pictures as security. He was to raise \$1,500 on them, the pictures to be placed in a safe deposit vault as security.

He gave back, she says, all but 20 and said that he did not know where the others were. Then he told her he could sell the pictures to George Vanderbilt, who wanted to decorate his house at Biltmore, N. C. About two months ago he disappeared. He owed Proprietor Baumann a \$1,400 board bill when he left. The police happened to hear of the matter and Moody was indicted in the case of Miss Vanderpool's \$1,000 bond.

THE UNION PACIFIC DEBT.

Arrangements Made For Depositing the Money, When Paid.

NEW YORK, Nov. 18.—Arrangements for the first payment to the government on account of the Union Pacific railroad debt have been practically completed by the reorganization committee and the syndicate. The first payment will be made next Monday and will amount to about \$13,500,000, the price paid for the bonds in the sinking fund held by the treasury.

These bonds will be turned over to the committee as soon as the money for them is deposited in the National City bank to the credit of the government. In proportion to the United States bonds deposited by them in the United States treasury at Washington as security for the cash held on account of the government, the National City bank will turn over to those banks part of the \$13,500,000. Thus about \$2,600,000 of bonds have been so deposited over and above the bonds for nearly the full amount deposited by the National bank.

Of the \$13,000,000 of Pacific bonds (currency) which the government will turn over to the reorganization committee next Monday, about \$1,000,000 are past due and they will be delivered to the committee at the sub-treasury in this city. The remainder for the most part become due on the 1st of January next, and some in January 1899.

A TRAIN DERAILED.

Three Out of Sixty Passengers Were Severely Injured.

CLEVELAND, Nov. 18.—A passenger train on the Cleveland, Canton and Southern railway has been derailed at the approach to a bridge over the Pettibone brook. Two of the passenger coaches rolled over the embankment into the ditch. Sixty persons were aboard, but only three were injured. Miss Grace Chapman, B. S. Baxter and John Roe, all of Chagrin Falls, sustained severe injuries.

The train jumped the rails on a curve, though at a much slackened rate from the regular speed. Had it gone a few feet further it would have crashed into the abutment of the bridge and fallen into the brook. The instant reversing of the locomotive at the moment of derailling prevented a serious calamity.

Physicians were summoned on incoming train No. 6 from Cuyahoga Falls, but when they arrived only three were found to require assistance. They were taken back to their homes at Chagrin Falls. The rest of the passengers were brought in on No. 6. A wrecking train placed the derailed train on the track again.

HANNA IN NEW YORK.

He Refuses to Discuss Either Ohio or National Politics.

NEW YORK, Nov. 18.—Mark Hanna, United States senator from Ohio and chairman of the Republican national committee, has arrived in New York. One Republican said: "I see by the papers that you will have about 15 majority on joint ballot instead of 5, as was at first supposed."

To this the senator replied: "I do not care to say a word about politics. My visit here is not political, and I wish to refrain from discussing the situation in Ohio."

"It is said, senator, that some Republicans elected on the fusion ticket will surely vote for you. What do you think about it?"

"You cannot get me to talk politics. Remember I have had nothing but politics for weeks. I expect to obtain a little rest while here."

He was asked: "What do you think of the result of the election in this city?"

"I do not wish to say anything about it."

"But, as chairman of the Republican national committee, do you believe it has a national bearing?"

"Not necessarily so."

The senator said that business is good in Ohio and everything looks encouraging.

PANIC IN A SCHOOL.

A Stove Upset—Four Pupils Seriously Injured.

CINCINNATI, Nov. 18.—A panic was caused in St. Xavier's school, on Sycamore street, between Fifth and Sixth streets, by the upsetting of a stove. A cry of fire was heard and the utmost confusion resulted. Some of the frightened children jumped from the windows, while others were thrown down by the maddened efforts of the stronger ones to escape. The fire and police departments responded to calls. The fire was quickly subdued and the four seriously injured pupils were sent home in patrol wagons. They are:

Charles Muligan, Lester Donovan, Joseph Roach and Jesse Stevens. Muligan jumped from a four-story window, alighting on a shed.

DESPERATE INDIAN GIRLS.

Because Not Allowed to Go Home, They Fired Carlisle School.

CARLISLE, Pa., Nov. 18.—Fannie Eagle Horn and Eliza Flander, Indian girls, have been arrested on complaint on Superintendent Pratt of the Indian school, and lodged in jail on the charge of arson.

A mysterious fire broke out in the girls' quarters of the school on Sunday afternoon, but was extinguished before much damage had been done. It was afterward learned that the two girls, who were pupils, had started the fire with the intention of burning down the school because they had been refused permission to go home.

Bank Robber Caught.

MORRISTOWN, N. J., Nov. 18.—Samuel B. Ritchie, arrested for robbing a freight car at Port Morris, has been identified by Sheriff Dowling as one of the gang which robbed the Bradley bank of Elden, Ia., of \$8,000 last February. Ritchie was captured at the time, but escaped from the Wapello county jail after having been indicted.

Killed Each Other Over a Debt.

BARBOURSVILLE, Ky., Nov. 18.—A fight which took place nine miles from this place, at the edge of Knox and Clay counties, between John Smith and Fred Harkler over a debt. They shot each other, both dying in an hour after the quarrel occurred. George Frankler, while trying to part the two, received a serious wound.

Shot a Widow and Suicided.

PHILADELPHIA, Nov. 18.—Mrs. Tillie Dahn, aged 28 years, has been shot in the hip at her home, 1335 Warnock street, by John Reickwart, a boarder. He then killed himself. The woman will probably recover. Mrs. Dahn bore an excellent reputation, and it is believed that Reickwart became suddenly insane.

A Coal Breaker Burned.

SCRANTON, Pa., Nov. 18.—The No. 2 breaker of the Delaware and Hudson Canal company has burned from what is thought to have been incendiary origin. The breaker was valued at \$75,000. The company carries its own insurance.

Widespread Plot to Kill Moraes.

RIO DE JANEIRO, Brazil, Nov. 18.—The police through a confession made to them, have learned that the plot to kill President Moraes is of far greater magnitude than was at first thought. As a result of this confession many new arrests have been made.

MARRIED THE BUTLER.

A Servant Said to Have Impersonated Ketcham.

WIDOW WALKUP'S SLICK TRICK.

Attorney of the Relative, Who Will Contest the Will, Declares the Woman Kept the Dissipated Clubman a Prisoner in Her House—Not Poisoned.

CHICAGO, Nov. 18.—Additional mystery is thrown about the case of John B. Ketcham, the Toledo millionaire, with every development brought forth by the police in their efforts to ascertain the facts surrounding his death at the home of Mrs. Minnie Wallace Walkup, or Ketcham. Joseph Keller, the butler at the home of the woman who now claims to be the widow of Mr. Ketcham, disappeared Tuesday evening, after having been held for some time by the police undergoing cross-examination of the most severe character regarding the circumstances of the alleged marriage of Mr. Wallace to Ketcham last September. The police declared that he had been questioned and allowed to depart at 10 o'clock, while, as a matter of fact, Keller was locked up on suspicion aroused by his own story.

The suspicion has been growing upon the police as the result of rumors which started in Milwaukee that Keller appeared in the role of a bridegroom at the wedding and that he, not Ketcham, stood before the minister with his face concealed under the folds of a scarf. As the result of this suspicion he was held over night and yesterday was driven away in charge of an officer. He is now held by the police, who are about to produce him at any time he may be needed.

The alleged wife of Ketcham is ill in bed with nervous prostration, the ordeal which she has undergone since the death of Ketcham having been too much for her strength.

Rev. Mr. Roberts of Milwaukee, who performed the ceremony, said, when shown a photograph of Butler Keller, that the picture much more resembled the man whom he married to Mrs. Walkup than did the picture of John B. Ketcham. Several of the butler's prominent features, including a small mustache, which was not a peculiarity of Mr. Ketcham, were carefully noted by the Rev. Mr. Roberts as common to both Keller and the bridegroom of Sept. 24.

The Rev. Mr. Roberts says that the bridegroom's face was partly muffled in a shawl, not, however, concealing the mustache.

Criminal proceedings are threatened against Mrs. Minnie Wallace and several persons whose names have not been divulged, but who John Borden Ketcham's relatives will charge were associated in what they characterize as a conspiracy.

Attorney James E. Purnell, representing the dead banker's family, said that enough evidence relative to John B. Ketcham's life in the Indiana avenue house, as well as the marriage that was performed in Milwaukee last September, had been collected by detectives to make a clear case of conspiracy against several persons.

He declared that Ketcham was virtually a prisoner in the woman's house and that she would not let him leave, or allow any person to see him. Ketcham, he said, died of natural causes and was not poisoned. He said the relatives would contest the will.

REED URGED TO RETIRE.

Large Commercial Interests Want Him to Locate in New York.

NEW YORK, Nov. 18.—Augustus G. Paine, an intimate friend of Thomas B. Reed in this city, said:

"It is true that the pressure of large commercial interests has been brought to bear on Mr. Reed to induce him to retire from congress and come to New York. Other large interests, however, feel that Mr. Reed should remain at the capital. I have seen Mr. Reed frequently of late, but the matter of his coming to New York has never been opened in our conversations."

MOHAMMEDANS EXPELLED.

Refused Admittance Because They Believe in Polygamy.

NEW YORK, Nov. 18.—The first polygamists excluded under the existing immigration laws were six Mohammedans, who had arrived on the steamer California and were arraigned before the special board of inquiry at the barge office here.

The immigrants declared that they all believed in the koran, which teaches polygamy.

They were then ordered deported.

AUTONOMY FOR CUBA.

The Spanish Cabinet Discusses It—Features of the Plan.

MADRID, Nov. 18.—The Spanish cabinet has discussed Cuban autonomy, the principal basis of which are the enjoyment of all the rights accorded by the Spanish constitution without any curtailment whatever; the identity of political and civil rights for Spaniards and Cubans without distinction of race

or color, and the creation of a Cuban chamber, all the members of which are to be elected by popular vote. A Cuban senate is to be created later on.

The chamber is to be empowered to vote the budget expenditure, make laws controlling public services, establish customs tariffs and decide the relative responsibility of the executive officers.

The motherland will have exclusive control of international affairs, military and naval matters and of the organization of the tribunals.

Spain also retains the direction of the political and civil laws of a national character, and retains control of the expenditures of the same character.

The executive power will be invested in a governor general, with deputies appointed by himself.

Both the governor general and his deputies will be responsible to the Cuban chamber.

WAR ON DE LOME.

Effort Will Be Made to Have Him Go Like Weyler.

HAVANA, Nov. 18.—The new secretary general of Cuba, Dr. Jose Congosto, formerly Spanish consul at Philadelphia, continues to make himself unpopular. He has had a dispute with various leaders. It is understood that letters have been written to Madrid calling attention to the alleged eccentricities of the secretary general and also dwelling upon his peculiar political sentiments.

It is believed here that there will be great excitement in Spain as soon as the United States congress meets. Letters found upon captured insurgents were recently advised to keep up the struggle for three months longer, pointing out that the first act of the Sagasta government would be the removal of General Weyler, and adding that war would be made on the Spanish minister at Washington, Senor Dupuy de Lome. It is charged that Senor Dupuy de Lome and Dr. Congosto are to blame for the spread in the United States of the sentiment in favor of autonomy, and it is even alleged that they have induced American newspapers to advocate their policy.

There is much excitement here at present over the news of the landing of another filibustering expedition by the Dauntless.

MCKINLEY'S POLICY.

Sagasta Awaits Its Drift Before Dissolving Parliament.

MADRID, Nov. 18.—The government will not dissolve parliament nor fix a date for the elections and the meeting of the new cortes until Premier Sagasta can definitely in December form an opinion on the attitude of the American congress toward Spain and until President McKinley's message and the contemplated note on the question of filibustering expeditions enable him to see the drift of McKinley's policy.

The government and even leaders of the opposition deem it unadvisable to risk being without a parliament in case complications arise in it's relations with the United States.

SECRETARY WILSON SPOKE.

The National Grange Will Adjourn Today at Harrisburg.

HARRISBURG, Nov. 18.—The national grange decided to adjourn finally today. Encouraging reports were received from the state masters of Texas and North Carolina. The grange also decided to adopt a ceremony for the laying of cornerstones of grange halls. The proposition to send a delegate to the women's congress was rejected, and the Nicaragua canal project was endorsed in a report from the committee on foreign relations.

Secretary of Agriculture Wilson made an informal address at the afternoon session yesterday. He congratulated the grange on the important position it occupies and the dignified manner in which the grangers discharge the responsibilities resting upon them.

KAIULANI MAY BE MARRIED.

Her Father Denies Her Visit Has Any Political Significance.

SAN FRANCISCO, Nov. 18.—The arrival of Princess Kaiulani at Honolulu caused a flutter.

A. S. Cleghorn, her father, is quoted as saying that his daughter's visit has no political significance. If it had it would not be policy for him to admit the fact, as the young woman is now receiving a substantial pension from the Hawaiian government—enough to support herself in comfort. If this government imagined for a moment that Kaiulani was plotting her pension would be immediately stopped.

Rumor has it that the princess is here to be married. The groom is said to be George Davies, a son of T. H. Davies, the guardian of the young lady.

BATTLESHIP IOWA'S TRIAL.

Made 13 1-2 Knots an Hour and Is Satisfactory in Every Way.

NEW YORK, Nov. 18.—The United States battleship Iowa has arrived at the Brooklyn navyyard after concluding her final trial trip. Before coming up the upper bay the battleship anchored for a short time off Tompkinsville, where the inspection board went ashore in the ship's steam launch.

The report of the board will be sent by telegraph to Washington, and it is said that the performance of the Iowa during the trip was in every way satisfactory and that the board will recommend that the government finally accept the war vessel. She made 13 1-2 knots an hour under natural draught.

CHINESE FORTS SEIZED

Germany Averages the Killing of Missionaries.

LIKELY TO NEVER VACATE THEM.

The Region Thus Controlled Very Rich in Minerals—Best Harbor Along the Coast—Chinese Soldiers Fled—United States Ships Ordered There.

LONDON, Nov. 18.—A special dispatch from Shanghai says that the commander of the German cruiser Division, Admiral Von Diederich, landed troops at Kiao-Chau on Monday morning, Nov. 15. The three forts were held by 1,500 Chinese and their guns commanded the fleet. Admiral Von Diederich placed his four cruisers immediately opposite, ready to fire, and sent an ultimatum ordering the evacuation of the forts within three hours.

Six hundred German troops and six guns were then landed and began to march forward. The Chinese hesitated for a few moments, and then the whole 1,500 bolted, helter skelter across the hills behind the forts. The Germans quietly entered the fortifications, hauled down the Chinese flag and hoisted the German standard, which the warships saluted immediately.

The forts are now held by the Germans, who, it is believed at Shanghai, intend to remain permanently.

In official Chinese circles Germany is considered to have committed an act of war, but it is regarded as improbable that China, on account of her weakness, will take action upon it as such.

American and British warships have been ordered to Kiao-Chau to watch developments. The greatest interest is felt as to the result of Germany's action, because the region is immensely rich in minerals and the harbor the best along the coast.

It is now asserted that the murder of the two German missionaries near Yen-Chu-Fu (Yen-Tu) was not the work of bandits, as originally understood, but was deliberately planned by Li Huhg Hing, governor of the province, prior to his departure for See-Chouan, of which he has been appointed viceroy.

SULTAN FORCED TO YIELD.

Austrian Ships Would Have Bombarded Messina Today.

LONDON, Nov. 18.—A special dispatch from Constantinople, confirming the special dispatch from Vienna announcing that the Turkish government has agreed to the demands of Austria, adds that the vali of Adana and mutassariff of Mersina have been deposed, says that the victim of the outrage, Herr Brazzafeili, will be indemnified, and asserts that the sultan has consented to pay the claims of the Oriental road which is operated by an Austrian company, paying the \$1,250,000, being the balance due the company for the conveyance of Turkish troops during the recent war with Greece.

The Austrian ambassador would have left Constantinople and Austrian warships would have bombarded Mersina today if the demands had not been granted.

OFFICIALS PLEASED.

They Deny the Seat Conference Was a Failure, as Reported.

WASHINGTON, Nov. 18.—The officers of the state department were very much surprised at the reports of the total failure of the Canadian negotiations which appeared in several newspapers. One of them said:

"That view is not taken by the government in Washington. The representatives of the Canadian government who have just left this city did not come to Washington with any expectation of concluding any arrangement or treaty during their brief stay.

"The only fact correctly stated in the publications referred to is that under the influences prevailing the seal experts agreed upon a report. This report will furnish a good basis for further action. It goes without saying that Canada is not disposed to make a concession upon the seals without some consideration to Canada. What such reciprocal concession or concessions should be is a question not yet disposed of, but continuing under consideration. There has not been the slightest check to the negotiations further than the inevitable delay in the settlement of the sealing question.

"If ever irritating questions can be removed between the two countries (meaning the United States and Canada) they can be disposed of under the administration now charged with the conduct of affairs in the United States and Canada."

Officials Ordered Paid.

CHARLESTON, W. Va., Nov. 18.—Judge Jackson of the federal court awarded judgment in favor of the plaintiffs in the case of Priddie and others against the United States to secure payment of their salary. The court some months ago awarded an injunction to prevent removal of three deputy marshals for political reasons. The department of justice at Washington refused to pay the salaries.

EVENING NEWS REVIEW.

THIRTEENTH YEAR. NO. 139.

EAST LIVERPOOL, OHIO, THURSDAY, NOVEMBER 18, 1897.

TWO CENTS

SWINDLED THE LADIES.

A Slick Youth Arrested at New Haven.

HE INCURRED BIG BOARD BILLS.

Secured Two Society Girls of New York out of Large Amounts and Paid an Account at the Holland—Swindled a Lady Artist at the Buckingham.

NEW YORK, Nov. 18.—Arthur Blair Moody of New Haven has been arrested in that city. Moody is now out on bail and is fighting the attempt to extradite him to New York. He is 28 years old and comes of a good family. His father is in the insurance business in New Haven, and his mother is a doctor. Moody stopped for a long time at the Holland House and cut quite a dash. When he left the Holland, he was \$1,100 in debt to Proprietor Baumann for his board. Moody happened to meet the Rev. Dr. De Leon Nicholl, who took a fancy to him and introduced him to Miss Mary Van Buren Vanderpool, who in turn introduced him to her friend, Miss Rosamond H. Owen. Both ladies hold high positions in New York society. As soon as Moody felt that he had gained the confidence of the women, he dined them at the Holland House. There, it is alleged, he unfolded a great mining scheme.

Miss Owen took to it and gave Moody \$5,000. That was in March last. On July 15 Moody went to Miss Owen and said that \$1,000 more was needed, and she gave him a consolidated 6 per cent gold bond of the St. Paul, Minneapolis and Manitoba railroad, market value \$1,175. She told Moody to dispose of it and return the \$175 to her. He gave the bond to Proprietor Baumann of the Holland House for a board bill of \$1,170. Moody never redeemed it, and it was sold. He did not return the \$175 to Miss Owen. Later, in July, Moody went to Miss Vanderpool and told her of another splendid opportunity for making money. Miss Vanderpool says she gave Moody a \$1,000 United States gold bond without getting any receipt or security for it, and she has not since heard of it.

Meantime Moody, at the Buckingham hotel, met Miss Ellis Rowen, an artist in water colors from Australia. She was also impressed with Moody and showed him a set of 150 water color paintings of the Flora of Australia, which she said was worth £3,000. Moody broached his latest scheme to the artist, and got \$450 from her on the security of 50 shares of the stock of his company. Then he wanted more money for the scheme and she let him take the pictures as security. He was to raise \$1,500 on them, the pictures to be placed in a safe deposit vault as security.

He gave back, she says, all but 30 and said that he did not know where the others were. Then he told her he could sell the pictures to George Vanderbilt, who wanted to decorate his house at Biltmore, N. C. About two months ago he disappeared. He owed Proprietor Baumann a \$1,400 board bill when he left. The police happened to hear of the matter and Moody was indicted in the case of Miss Vanderpool's \$1,000 bond.

THE UNION PACIFIC DEBT.

Arrangements Made For Depositing the Money, When Paid.

NEW YORK, Nov. 18.—Arrangements for the first payment to the government on account of the Union Pacific railroad debt have been practically completed by the reorganization committee and the syndicate. The first payment will be made next Monday and will amount to about \$13,500,000, the price paid for the bonds in the sinking fund held by the treasury.

These bonds will be turned over to the committee as soon as the money for them is deposited in the National City bank to the credit of the government. In proportion to the United States bonds deposited by them in the United States treasury at Washington as security for the cash held on account of the government, the National City bank will turn over to those banks part of the \$13,000,000. Thus about \$2,600,000 of bonds have been so deposited over and above the bonds for nearly the full amount deposited by the National bank.

Of the \$13,000,000 of Pacific bonds (currency) which the government will turn over to the reorganization committee next Monday, about \$4,000,000 are past due and they will be delivered to the committee at the sub-treasury in this city. The remainder for the most part become due on the 1st of January next, and some in January 1899.

A TRAIN DERAILED.

Three Out of Sixty Passengers Were Severely Injured.

CLEVELAND, Nov. 18.—A passenger train on the Cleveland, Canton and Southern railway has been derailed at the approach to a bridge over the Pettibone brook. Two of the passenger coaches rolled over the embankment into the ditch. Sixty persons were aboard, but only three were injured. Miss Grace Chapman, B. S. Baxter and John Roe, all of Chagrin Falls, sustained severe injuries.

The train jumped the rails on a curve, though at a much slackened rate from the regular speed. Had it gone a few feet further it would have crashed into the abutment of the bridge and fallen into the brook. The instant reversing of the locomotive at the moment of derailling prevented a serious calamity.

Physicians were summoned on incoming train No. 6 from Cuyahoga Falls, but when they arrived only three were found to require assistance. They were taken back to their homes at Chagrin Falls. The rest of the passengers were brought in on No. 6. A wrecking train placed the derailed train on the track again.

HANNA IN NEW YORK.

He Refuses to Discuss Either Ohio or National Politics.

NEW YORK, Nov. 18.—Mark Hanna, United States senator from Ohio and chairman of the Republican national committee, has arrived in New York. One Republican said: "I see by the papers that you will have about 15 majority on joint ballot instead of 5, as was at first supposed."

To this the senator replied: "I do not care to say a word about politics. My visit here is not political, and I wish to refrain from discussing the situation in Ohio."

"It is said, senator, that some Republicans elected on the fusion ticket will surely vote for you. What do you think about it?"

"You cannot get me to talk politics. Remember I have had nothing but politics for weeks. I expect to obtain a little rest while here."

He was asked: "What do you think of the result of the election in this city?"

"I do not wish to say anything about it."

"But, as chairman of the Republican national committee, do you believe it has a national bearing?"

"Not necessarily so."

The senator said that business is good in Ohio and everything looks encouraging.

PANIC IN A SCHOOL.

A Stove Upset—Four Pupils Seriously Injured.

CINCINNATI, Nov. 18.—A panic was caused in St. Xavier's school, on Sycamore street, between Fifth and Sixth streets, by the upsetting of a stove. A cry of fire was heard and the utmost confusion resulted. Some of the frightened children jumped from the windows, while others were thrown down by the maddened efforts of the stronger ones to escape. The fire and police departments responded to calls. The fire was quickly subdued and the four seriously injured pupils were sent home in patrol wagons. They are: Charles Mulligan, Lester Donovan, Joseph Roach and Jesse Stevens. Mulligan jumped from a four-story window, alighting on a shed.

DESPERATE INDIAN GIRLS.

Because Not Allowed to Go Home, They Fired Cartridge School.

CARLISLE, Pa., Nov. 18.—Fannie Eagle Horn and Eliza Flander, Indian girls, have been arrested on complaint on Superintendent Pratt of the Indian school, and lodged in jail on the charge of arson.

A mysterious fire broke out in the girls' quarters of the school on Sunday afternoon, but was extinguished before much damage had been done. It was afterward learned that the two girls, who were pupils, had started the fire with the intention of burning down the school because they had been refused permission to go home.

Bank Robber Caught.

MORRISTOWN, N. J., Nov. 18.—Samuel B. Ritchie, arrested for robbing a freight car at Port Morris, has been identified by Sheriff Dowling as one of the gang which robbed the Bradley bank of Elden, Ia., of \$8,000 last February. Ritchie was captured at the time, but escaped from the Wapello county jail after having been indicted.

Killed Each Other Over a Debt.

BARBOURVILLE, Ky., Nov. 18.—A fight which took place nine miles from this place, at the edge of Knox and Clay counties, between John Smith and Fred Harkler over a debt. They shot each other, both dying in an hour after the quarrel occurred. George Frankler, while trying to part the two, received a serious wound.

Shot a Widow and Suicided.

PHILADELPHIA, Nov. 18.—Mrs. Tillie Dahn, aged 28 years, has been shot in the hip at her home, 1335 Warnock street, by John Reickwart, a boarder. He then killed himself. The woman will probably recover. Mrs. Dahn bore an excellent reputation, and it is believed that Reickwart became suddenly insane.

A Coal Breaker Burned.

SCRANTON, Pa., Nov. 18.—The No. 2 breaker of the Delaware and Hudson Canal company has burned from what is thought to have been incendiary origin. The breaker was valued at \$75,000. The company carries its own insurance.

Widespread Plot to Kill Moraes.

RIO DE JANEIRO, Brazil, Nov. 18.—The police through a confession made to them, have learned that the plot to kill President Moraes is of far greater magnitude than was at first thought. As a result of this confession many new arrests have been made.

MARRIED THE BUTLER.

A Servant Said to Have Impersonated Ketcham.

WIDOW WALKUP'S SLICK TRICK.

Attorney of the Relative, Who Will Contest the Will, Declares the Woman Kept the Dissipated Clubman a Prisoner in Her House—Not Poisoned.

CHICAGO, Nov. 18.—Additional mystery is thrown about the case of John B. Ketcham, the Toledo millionaire, with every development brought forth by the police in their efforts to ascertain the facts surrounding his death at the home of Mrs. Minnie Wallace Walkup, or Ketcham. Joseph Keller, the butler at the home of the woman who now claims to be the widow of Mr. Ketcham, disappeared Tuesday evening, after having been held for some time by the police undergoing cross-examination of the most severe character regarding the circumstances of the alleged marriage of Mr. Wallace to Ketcham last September. The police declared that he had been questioned and allowed to depart at 10 o'clock, while, as a matter of fact, Keller was locked up on suspicion aroused by his own story.

The suspicion has been growing upon the police as the result of rumors which started in Milwaukee that Keller appeared in the role of a bridegroom at the wedding and that he, not Ketcham, stood before the minister with his face concealed under the folds of a scarf. As the result of this suspicion he was held over night and yesterday was driven away in charge of an officer. He is now held by the police, who are about to produce him at any time he may be needed.

The alleged wife of Ketcham is ill in bed with nervous prostration, the ordeal which she has undergone since the death of Ketcham having been too much for her strength.

Rev. Mr. Roberts of Milwaukee, who performed the ceremony, said, when shown a photograph of Butler Keller, that the picture much more resembled the man whom he married to Mrs. Walkup than did the picture of John B. Ketcham. Several of the butler's prominent features, including a small mustache, which was not a peculiarity of Mr. Ketcham, were carefully noted by the Rev. Mr. Roberts as common to both Keller and the bridegroom of Sept. 24.

The Rev. Mr. Roberts says that the bridegroom's face was partly muffled in a shawl not, however, concealing the mustache.

Criminal proceedings are threatened against Mrs. Minnie Wallace and several persons whose names have not been divulged, but who John Borden Ketcham's relatives will charge were associated in what they characterize as a conspiracy.

Attorney James E. Purnell, representing the dead banker's family, said that enough evidence relative to John B. Ketcham's life in the Indiana avenue house, as well as the marriage that was performed in Milwaukee last September, had been collected by detectives to make a clear case of conspiracy against several persons.

He declared that Ketcham was virtually a prisoner in the woman's house and that she would not let him leave, or allow any person to see him. Ketcham, he said, died of natural causes and was not poisoned. He said the relatives would contest the will.

REED URGED TO RETIRE.

Large Commercial Interests Want Him to Locate in New York.

NEW YORK, Nov. 18.—Augustus G. Paine, an intimate friend of Thomas B. Reed in this city, said:

"It is true that the pressure of large commercial interests has been brought to bear on Mr. Reed to induce him to retire from congress and come to New York. Other large interests, however, feel that Mr. Reed should remain at the capital. I have seen Mr. Reed frequently of late, but the matter of his coming to New York has never been opened in our conversations."

MOHAMMEDANS EXPELLED.

Refused Admittance Because They Believe in Polygamy.

NEW YORK, Nov. 18.—The first polygamists excluded under the existing immigration laws were six Mohammedans, who had arrived on the steamer California and were arraigned before the special board of inquiry at the barge office here.

The immigrants declared that they all believed in the koran, which teaches polygamy.

AUTONOMY FOR CUBA.

The Spanish Cabinet Discusses It—Features of the Plan.

MADRID, Nov. 18.—The Spanish cabinet has discussed Cuban autonomy, the principal basis of which are the enjoyment of all the rights accorded by the Spanish constitution without any curtailment whatever; the identity of political and civil rights for Spaniards and Cubans without distinction of race

or color, and the creation of a Cuban chamber, all the members of which are to be elected by popular vote. A Cuban senate is to be created later on.

The chamber is to be empowered to vote the budget expenditure, make laws controlling public services, establish customs tariffs and decide the relative responsibility of the executive officers.

The motherland will have exclusive control of international affairs, military and naval matters and of the organization of the tribunals.

Spain also retains the direction of the political and civil laws of a national character, and retains control of the expenditures of the same character.

The executive power will be invested in a governor general, with deputies appointed by himself.

Both the governor general and his deputies will be responsible to the Cuban chamber.

WAR ON DE LOME.

Effort Will Be Made to Have Him Go Like Weyler.

HAVANA, Nov. 18.—The new secretary general of Cuba, Dr. Jose Congosto, formerly Spanish consul at Philadelphia, continues to make himself unpopular. He has had a dispute with various leaders. It is understood that letters have been written to Madrid calling attention to the alleged eccentricities of the secretary general and also dwelling upon his peculiar political sentiments.

It is believed here that there will be great excitement in Spain as soon as the United States congress meets. Letters found upon captured insurgents were recently advised to keep up the struggle for three months longer, pointing out that the first act of the Sagasta government would be the removal of General Weyler, and adding that war would be made on the Spanish minister at Washington, Senor Deputy de Lome. It is charged that Senor Deputy de Lome and Dr. Congosto are to blame for the spread in the United States of the sentiment in favor of autonomy, and it is even alleged that they have induced American newspapers to advocate their policy.

There is much excitement here at present over the news of the landing of another filibustering expedition by the Dauntless.

MCKINLEY'S POLICY.

Sagasta Awaits Its Drift Before Dissolving Parliament.

MADRID, Nov. 18.—The government will not dissolve parliament nor fix a date for the elections and the meeting of the new cortes until Premier Sagasta can definitely in December form an opinion on the attitude of the American congress toward Spain and until President McKinley's message and the contemplated note on the question of filibustering expeditions enable him to see the drift of McKinley's policy.

The government and even leaders of the opposition deem it inadvisable to risk being without a parliament in case complications arise in its relations with the United States.

SECRETARY WILSON SPOKE.

The National Grange Will Adjourn Today at Harrisburg.

HARRISBURG, Nov. 18.—The national grange decided to adjourn finally today. Encouraging reports were received from the state masters of Texas and North Carolina. The grange also decided to adopt a ceremony for the laying of cornerstones of grange halls. The proposition to send a delegate to the women's congress was rejected, and the Nicaragua canal project was endorsed in a report from the committee on foreign relations.

Secretary of Agriculture Wilson made an informal address at the afternoon session yesterday. He congratulated the grange on the important position it occupies and the dignified manner in which the grangers discharge the responsibilities resting upon them.

KAIULANI MAY BE MARRIED.

Her Father Denies Her Visit Has Any Political Significance.

SAN FRANCISCO, Nov. 18.—The arrival of Princess Kaiulani at Honolulu caused a flutter.

A. S. Cleghorn, her father, is quoted as saying that his daughter's visit has no political significance. If it had it would not be policy for him to admit the fact, as the young woman is now receiving a substantial pension from the Hawaiian government enough to support herself in comfort. If this government imagined for a moment that Kaiulani was plotting her pension would be immediately stopped.

Rumor has it that the princess is here to be married. The groom is said to be George Davies, a son of T. H. Davies, the guardian of the young lady.

BATTLESHIP IOWA'S TRIAL.

Made 13 1/2 Knots an Hour and Is Satisfactory in Every Way.

NEW YORK, Nov. 18.—The United States battleship Iowa has arrived at the Brooklyn navyyard after concluding her final trial trip. Before coming up the upper bay the battleship anchored for a short time off Tompkinsville, where the inspection board went ashore in the ship's steam launch.

The report of the board will be sent by telegraph to Washington, and it is said that the performance of the Iowa during the trip was in every way satisfactory and that the board will recommend that the government finally accept the war vessel. She made 13 1/2 knots an hour under natural draught.

CHINESE FORTS SEIZED

Germany Averages the Killing of Missionaries.

LIKELY TO NEVER VACATE THEM.

The Region Thus Controlled Very Rich in Minerals—Best Harbor Along the Coast—Chinese Soldiers Fled—United States Ships Ordered There.

LONDON, Nov. 18.—A special dispatch from Shanghai says that the commander of the German cruiser Division, Admiral Von Diederich, landed troops at Kiao-Chau on Monday morning, Nov. 15. The three forts were held by 1,500 Chinese and their guns commanded the fleet. Admiral Von Diederich placed his four cruisers immediately opposite, ready to fire, and sent an ultimatum ordering the evacuation of the forts within three hours.

Six hundred German troops and six guns were then landed and began to march forward. The Chinese hesitated for a few moments, and then the whole 1,500 bolted, helter skelter across the hills behind the forts. The Germans quietly entered the fortifications, hauled down the Chinese flag and hoisted the German standard, which the warships saluted immediately.

The forts are now held by the Germans, who, it is believed at Shanghai, intend to remain permanently.

In official Chinese circles Germany is considered to have committed an act of war, but it is regarded as improbable that China, on account of her weakness, will take action upon it as such.

American and British warships have been ordered to Kiao-Chau to watch developments. The greatest interest is felt as to the result of Germany's action, because the region is immensely rich in minerals and the harbor the best along the coast.

It is now asserted that the murder of the two German missionaries near Yen-Chu-Fu (Yen-Tu) was not the work of bandits, as originally understood, but was deliberately planned by Li Huhg Hing, governor of the province, prior to his departure for See-Chouan, of which he has been appointed viceroy.

SULTAN FORCED TO YIELD.

Austrian Ships Would Have Bombarded Messina Today.

LONDON, Nov. 18.—A special dispatch from Constantinople, confirming the special dispatch from Vienna announcing that the Turkish government has agreed to the demands of Austria, adds that the vali of Adana and Intossariff of Mersina have been deposed, says that the victim of the outrage, Herr Brazzafeili, will be indemnified, and asserts that the sultan has consented to pay the claims of the Oriental road which is operated by an Austrian company, paying the \$1,250,000, being the balance due the company for the conveyance of Turkish troops during the recent war with Greece.

The Austrian ambassador would have left Constantinople and Austrian warships would have bombarded Mersina today if the demands had not been granted.

OFFICIALS PLEASED.

They Deny the Seal Conference Was a Failure, as Reported.

WASHINGTON, Nov. 18.—The officers of the state department were very much surprised at the reports of the total failure of the Canadian negotiations which appeared in several newspapers. One of them said:

"That view is not taken by the government in Washington. The representatives of the Canadian government who have just left this city did not come to Washington with any expectation of concluding any arrangement or treaty during their brief stay."

"The only fact correctly stated in the publications referred to is that under the influences prevailing the seal experts agreed upon a report. This report will furnish a good basis for further action. It goes without saying that Canada is not disposed to make a concession upon the seals without some consideration to Canada. What such reciprocal concession or concessions should be is a question not yet disposed of, but continuing under consideration. There has not been the slightest check to the negotiations further than the inevitable delay in the settlement of the sealing question."

"If ever irritating questions can be removed between the two countries (meaning the United States and Canada) they can be disposed of under the administration now charged with the conduct of affairs in the United States and Canada."

Officials Ordered Paid.

CHARLESTON, W. Va., Nov. 18.—Judge Jackson of the federal court awarded judgment in favor of the plaintiffs in the case of Priddie and others against the United States to secure payment of their salary. The court some months ago awarded an injunction to prevent removal of three deputy marshals for political reasons. The department of justice at Washington refused to pay the salaries.

THE CLARK LAW IS DEAD

Supreme Court Deals Old Soldiers a Blow.

DECIDED IT UNCONSTITUTIONAL

The Bill Was Passed by the Last Legislature and Provided That In Municipal and County Appointments Veterans Were to Have the Preference.

The supreme court has declared invalid many measures passed by the last legislature, but it is doubtful if its action in any case will excite the interest occasioned by the announcement that the Clark law is unconstitutional.

April 3, 1896, Senator Clark, of Cleveland, succeeded in having passed a bill which said that in the making of appointments in county or municipality preference must be given to regularly discharged Union soldiers.

The case on which the decision was rendered came from Wooster, being that of Edward Keyser against the commissioners of Wayne county. Keyser was a candidate for appointment as superintendent of the court house, and the commissioners appointed another, not an old soldier, over him. Commissioners answered and Keyser demurred to the answer, but the court sustained it as demurrer to his petition, dismissing the petition at Keyser's costs. It is not known what the grounds of the decision were. The case will be reported.

The decision is of especial interest to East Liverpool since it deals with a case which caused a vast deal of comment here a few months ago.

Isaac Burlingame, an old soldier, applied to the board of education for the position of janitor at the new Bradshaw school. The board appointed another party, and the case went to the grand jury, but it was not shown that he had asked the position on the ground that he was an old soldier, and no indictment was found.

The law was universally endorsed by old soldiers in all parts of the state as being the right kind of legislation to protect their claims. It is probable an effort will be made to have the next legislature enact a law on similar lines.

NOW DOCTOR.

Complete the Good Work by a Little Advertising.

The National Advertiser touches an important subject when it says:

"There are evidences that business like methods are to be introduced in the medical profession. The doctors are forming protective associations for the purpose of compelling delinquents to choose between paying their bills and getting no more attendance when they are sick. In North Tonawanda, N. Y., the physicians have agreed to raise the price of their services. All right, gentlemen. Now go one step further and advertise yourselves in a rational, dignified fashion."

FINISHED INSPECTION.

Cleveland and Pittsburg Officials Went Over the Line.

A number of officials of the Cleveland and Pittsburg road last evening finished their annual inspection of the entire Cleveland and Pittsburg system. The party left Cleveland Tuesday afternoon, and spent the night in New Philadelphia. Yesterday they inspected the river branch, and passed through the city at 2 o'clock yesterday afternoon.

The party was composed of Messrs. Scriven, Grafton, Schoenberger and Peters, all stationed in Cleveland. The train was in charge of Conductor E. A. McGarren.

THOSE VALUABLE LOTS

Of the East End Land Improvement company can be secured at Attorney McGarry's office, Fifth street, at auction prices. See the plat on exhibition. Every lot marked off with blue pencil is a bonafide sale. The first payment is but light, with a payment each month thereafter, such a payment as any mechanic can reach easily. These lots will be very valuable in a short time. Purchase while you can.

The Ryan Company.

Daniel J. Ryan and his company are the attraction at the Grand next week. The plays for this engagement are: Monday, "My Partner;" Tuesday, "Lost Paradise;" Wednesday, "Jim the Penman;" Thursday, "Ingomar;" Friday, "The Iron Master;" Saturday, "Nick of the Woods."

The company is composed of 18 persons, and is among the best on the road. Miss Ethel Fuller is an artist, and is well supported. A leading feature is made up of the excellent specialties between acts.

TO HELP THE POOR.

SALVATION ARMY COLONY WILL BE ESTABLISHED IN CALIFORNIA.

Commander Booth-Tucker's Scheme to Aid the Needy by Growing Sugar Beets. Tract of Five Hundred Acres Has Been Secured For the Purpose.

Commander Booth-Tucker, the head of the Salvation Army in America, is preparing to launch a colonization scheme in America similar to that which General Booth has put into operation in England. He purposes removing the poverty stricken residents of our great cities to unoccupied tracts of land in the west, where they can have a chance to win a living from the soil. Early in the spring the first American Salvation colony will be established in California.

"This is not charity," said the Salvation commander in explaining the new project. "It is intended as a practical way to help the helpless. It will be conducted on business principles, and we will not attempt anything that has not been tested and found to be practicable. There are, at a conservative estimate, 3,000,000 persons in America who are always either in actual want or on the verge of starvation. At the same time there are millions of acres of fertile land capable of sustaining the unfortunates in a state that would be one of affluence compared to their present condition. The work that the Salvation Army proposes to do is simply that of an intermediary, to bring the people to the land and give them a chance to work out their own social salvation. Of course not all of those in dire need are fit for the work we propose to offer, and not all will be accepted. No man will be permitted to become a colonist until it has been determined to a reasonable certainty that he will make the most of his chance when it is offered to him.

"Before I visited the west I expected that most of the colonists would be drawn from the great cities east of the Mississippi, but I find that the western cities have developed so rapidly that each now has its own surplus population, and as these cities will supply the working capital for the first colonies they naturally demand that their own poor shall receive first attention. For example, the colony which has already been provided for in southern California will be recruited from San Francisco, where has been subscribed \$25,000 to start the undertaking."

The spot where the Salvation Army commander will locate his first society

COMMANDER BOOTH-TUCKER.

is in southern California, near the gulf of Monterey and within sight of the famous Hotel Del Monte and Coronado beach. The colony will be within rifle shot of Paraisos Springs and is a veritable paradise, so far as climate and surroundings are concerned. The colonists are not to be set at the hopeless task of reclaiming a desert, for the land is most fertile and capable of yielding 40 bushels of wheat to the acre. The tract comprises 500 acres, lying between the Salinas river and the Arroyo Seco, one of its tributaries.

"My reasons for selecting this particular spot for our first attempt are threefold," explained Commander Booth-Tucker, as he pointed out the advantageous location of the spot. "First is the climate, which I believe to be one of the most salubrious in the world. Second are the facilities for irrigation. The land slopes easily away from the Salinas, and there is the old ditch and the ancient pumping station, which can be refitted at small cost. Besides there is a steam pump close at hand from which water can always be secured. I am a great believer in irrigation. The third consideration is that we shall have close at hand a cash market for a crop to which the climate and soil is adapted and which requires extensive cultivation in small tracts for its success."

The crop to which the commander referred and which it is hoped will bring prosperity to the colony is the sugar beet. The Salinas valley already produces many tons of sugar beets, and it has been selected by Claus Spreckels as the site for his elaborate attempt to make California a great sugar producing state. Claus Spreckels has manifested great interest in the new colony. He has contributed \$1,000 to the scheme and offers the Salvationists land at a low price for the production of beets. But the promoters of the scheme prefer not to tie their fortunes to that of any one crop, though they expect the sugar beet to be their staple.

The land which the Salvationists

have secured is in a rectangular block with the county road skirting it on two sides. When the first 25 families go to the place next spring, they will find 50 ten acre farms laid out like the lots in a city block, fronting on a new road which will be put through the middle of the piece. On each alternate lot a small \$100 cottage will be erected ready for occupancy, half the farms being left vacant at first. On each lot a small plot of alfalfa will be growing and a few vegetables will have been planted in each garden.

"We will not lend to the individual settlers," says Commander Booth-Tucker, "but we shall form them into a mutual association like the Knyphausen societies in Germany and shall lend to the whole 25 on their joint securities. They will then lend to each other on notes of hand. The result will be that they will watch each other, and each man will have to make the best use of the money he receives and live up to his agreement, or he will not long enjoy the benefits of the association."

"In time," said the commander, his eyes kindling, "I hope to be able to march the poor out of our great cities in regiments, 1,000 at a time, and settle them on the land, where they can obtain a decent living by hard work and bring up their children away from vicious city surroundings. We do not propose to support any settlers in idleness, and we shall be careful to sift out the scamps and scoundrels so far as we can. If this colony is a success, others of similar nature will be started in Colorado and neighboring states."—Chicago Times-Herald.

FORGOT HIS BROKEN ANKLE.

Fireman McCabe Started to Answer a Fire Call From a Hospital.

A hose near which Fireman Hugh B. McCabe of Engine 37, whose house is in New York, was standing burst at a fire in Manhattan street on the recent election night, and he was knocked down. His right ankle was broken. McCabe was taken to the Manhattan hospital and his foot was done up in plaster of paris.

In one of the corridors of the hospital is a bell on which are sounded all the fire alarms rung in the city, so that the hospital authorities may be able to make preparation to care for the injured in case of a bad fire. This bell is just outside the ward in which McCabe was placed.

McCabe dozed off early a few evenings ago and was sleeping as soundly as a fireman can at 9 o'clock. In his sleep he had forgotten his injury. About 9 o'clock there was an alarm of fire from box 744, at Eighth avenue and One Hundred and Twenty-first street, one of the boxes calling his company. The first stroke of the bell aroused McCabe, and before the second one sounded he had jumped out of bed, and, with his eyes only half opened, he was searching for the rod on which firemen slide to the lower floors. He walked around on his injured ankle until his hands touched the iron post of his cot. McCabe threw his arms around the post and tried to wrap his legs around it too.

He fell to the floor, and the bones of his ankle were broken again.

In addition to this injury he received severe strains, from which he will not recover in many weeks.

GOLD STUFFED DUCKS.

Remarkably Good Fortune of a Chicago Grocer and His Friend.

Ducks filled with gold nuggets have recently been sold in Milwaukee avenue market in Chicago.

A friend of Groceriesman Wiebe bought a pair of the gold stuffed canvasbacks at a store in the northwest thoroughfare, near Division street. In their craws were found several bits of the "pay dirt" in lumps as large as a Lima bean.

In confidence Wiebe was told of the rich strike. Now the groceriesman and his friend have formed a gold prospecting company, whose first task will be to find the farm where the ducks were raised, purchase it at once from the owner and then gather gold galore. When seen at his place of business a few days ago, Wiebe was reticent, though excited.

"We are not talking, for much remains to be done before anything can be done," he ejaculated paradoxically. And further he said not.—Cleveland Plain Dealer.

True to the Family Cause.

She was the daughter of a street railway magnate.

And the good looking young man had just kissed her.

A moment later he looked in her eyes with a disappointed expression.

"Can't you pay that back?" he murmured.

The lovely girl tossed her head.

"I believe," she said, "that you favor lower fares?"

"Yes," he reluctantly admitted, "I do."

"Then," she said haughtily, "you need expect no transfers on this system."

And the young man knew that the magnates had won another round.—Cleveland Plain Dealer.

ILLS FOR \$1,000,000.

OSHKOSH, Wis., Nov. 18.—Henry Sherry of Neenah, the head of several large lumber and paper mills companies, has decided to make an assignment. He places his liabilities at \$1,600,000 and nominal assets the same.

SOVEREIGN FOR PRESIDENT.

Should Bryan Run, He Wants Second Place on the Ticket.

LOUISVILLE, Nov. 18.—The general assembly of the Knights of Labor, which has been in session in this city since the early part of last week, has completed its work and adjourned until the second Tuesday of next November, when it will convene again in Chicago.

A delegate to the general assembly from New York city and one of the most prominent in the body, said to a newspaper representative that Mr. Sovereign, beyond a doubt, would be a candidate for the nomination of president in 1900.

"If," he said, "Mr. Bryan insists on making a fight for the nomination, Mr. Sovereign will not oppose him, for the two are warm friends. In that event Mr. Sovereign will become a candidate for the nomination of vice president. It was natural for Mr. Sovereign to deny the report, as he did not care for the capitalists to interfere this early in his canvass and thus greatly injure him before the fight was fairly on."

RIOT IN A PUBLIC SCHOOL.

Student Because Whipped Fired Building and Assaulted a Teacher.

DARDANELLE, Ark., Nov. 18.—A riot occurred in the public school here, the results of which is that Prof. Dickinson is in a critical condition, a student named Alley is expelled and the student's father, F. A. Alley, is in jail. The trouble started when Miss Jones, one of the teachers, attempted to correct young Alley for an infraction of the rules. Alley is a boy of 17 years and Miss Jones thrashed him. The boy took the punishment, but resolved on revenge, and at recess set fire to the premises.

For this offense Prof. Dickinson attempted to give the boy another thrashing. Alley resisted and in the fight with Dickinson had all the best of it, beating the professor's face into a jelly and inflicting dangerous wounds. A free fight ensued and Alley's father came to his son's rescue. Officers stopped the fight and locked Alley senior up in jail.

Unknown Countess Suicides.

EDINBURGH, Nov. 18.—A woman apparently about 30 years of age and fashionably dressed but in the deepest mourning, who said she was the Countess Teresa Ulfeld, a Russian, adding that she was in mourning for her dead lover, complained to the police officer on duty at a station that she had been robbed of her purse containing a large sum of money. As the officer turned around to enter her complaint in the station blotter, she shot herself through the temple with a revolver.

Thanks From Grover Cleveland.

PRINCETON, N. J., Nov. 18.—Ex-President Cleveland said to a representative of the Associated Press: "The number and heartiness of the congratulations we have received on the birth of our son are so greatly appreciated that I wish you would convey through the Associated Press our thanks to all the kind people who have thus given us proof of their friendliness."

Session of Baptist Congress.

CHICAGO, Nov. 18.—The second day's session of the Baptist congress was devoted to a discussion of the question "Should Denominational Beliefs Impose Limitations Upon Teachers?" There were some differences of opinion as to what constituted the limit of how they should be observed by teachers of the church. The papers showed that a liberal view of the matter had been taken, but all seemed to agree that in teaching the Baptist faith it was necessary to follow the fundamental principles of the faith.

A Woman's Head Found.

ST. PAUL, Nov. 18.—Coroner Nelson has found the head of the unknown woman whose body was found in the woods near White Bear. He states that he hopes soon to establish her identity. She is thought to have been a member of a camping party in that neighborhood about a year ago and four play is indicated.

Moody's Visit to Pittsburg.

PITTSBURG, Nov. 18.—The inter-denominational committee appointed by the various ministerial associations to arrange for the revival to be conducted in Pittsburg early in December by Evangelist D. L. Moody has met and effected a formal organization.

Fever Restrictions Ended.

JACKSONVILLE, Fla., Nov. 18.—The end of all interference with railroad traffic by yellow fever restrictions has practically been reached. Matters are now virtually in normal condition.

Died Recalling Congratulations.

PHILADELPHIA, Nov. 18.—Austin Pryor, colored, 45 years old, who had just been elected president of the Hotel Brotherhood of the United States, dropped dead while receiving the congratulations of the members of that organization at their headquarters.

Three Men Drowned.

GOOD GROUND, L. I., Nov. 18.—A catboat manned by Andrew Foley, William and Oliver Wells has been upset in a squall in Shinnecock bay and all were drowned.

Discriminating Against American Goods.

GLASGOW, Nov. 18.—The joiners union has withdrawn all the members who were employed at work on buildings where a contractor was using American joinery.

Colored Murderer Hanged.

KNOXVILLE, Nov. 18.—Robert Sims, colored, has been hanged at Jonesboro, Washington county, Tenn. Sims shot and killed Walter Galloway.

You can tell a healthy woman by the way she dances. When a healthy woman dances every nerve and every muscle and every drop of blood in her whole body dances. For the moment she resembles in grace and easy movement a bird. That is the dance of health.

There is another measure to which tens of thousands of women are keeping step. It is a slow and solemn measure, and is the "Dance of Death." The woman who fails to take proper care of herself in a womanly way is keeping step to this measure and is unfit for wifehood and motherhood, and doomed to an early grave or to a life of suffering. Dr. Pierce's Favorite Prescription is the best of all medicines for ailing women. It acts directly on the delicate and important organs of femininity and makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and gives rest to the tortured nerves. It fits for wifehood and motherhood. It banishes the squeamishness of the period of suspense and makes the little stranger's advent easy and almost painless. It insures baby's health and an ample supply of nourishment. It has transformed thousands of nervous, sickly, fretful women into healthy, happy wives and competent mothers. It sends the blood, dancing to the quick-step of health, through the veins of maid, wife and mother. All good druggists sell it.

"I was all broken down from nervous prostration," writes Mrs. Henry Barlow, of Lonsdale, Providence Co., R. I. "Since taking Dr. Pierce's Favorite Prescription I have had more relief than from all the doctors' medicine."

A clear complexion. Any one can have it who keeps the blood pure. Constipation causes impure blood. Dr. Pierce's Pellets cure constipation. One is a laxative, two a cathartic. Never gripe. Druggists sell them.

THE WORK GOES ON.

East Liverpool is Interested—It Has Much to do With the Welfare of Our People.

Never out of work. That's the case with the kidneys. Twenty-four hours to the day is the time they put in.

They're equal to it when they're well. But they get sick. Stopping positions of the body, Straining a fall or over-exertion Often make the kidneys sick. But the work must go on. They need a helper.

They ask you for it through the back. When the back aches it's the kidneys Calling for assistance.

Neglect their petition and trouble follows.

Serious trouble, urinary trouble, diabetes, Bright's disease.

Doan's Kidney Pills are kidney helpers.

Perfect mechanics in their line. Help the kidneys and cure their ills. Hard at it here in East Liverpool, Relieving tired kidneys, curing sick ones.

The good work goes on.

Here's some evidence of it.

Mrs. Wm. Dunn, of 192 Sixth street, says: "Doan's Kidney Pills did for me what none of the doctors could do. Doctors told me I had gravel and a little relief was all I could expect. I suffered terribly—not only lately, but for two or three years, alternately better and worse, with severe pains across the small of my back and up my sides, particularly my right side. The pains were so severe that I was often obliged to stay in bed, not being able to get up. My limbs used to swell up so I could hardly walk, and periodically would be taken with such severe pains through the groins that I could hardly stand it. The doctors advised hot applications and gave me bottle after bottle of medicine, but I did not receive any real benefit until I procured a box of Doan's Kidney Pills at the W. & W. Pharmacy. Having seen them so highly recommended by others, I took them and am gratified to say that they helped me almost at once, and I have every confidence they will ultimately cure me."

Doan's Kidney Pills are for sale by all dealers, price 50 cents, or sent by mail by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Dr. Geo. D. Arnum,
Surgeon Dentist.

FILTHY OPEN GUTTERS

Will Likely Kill More People In Wellsville

IF COUNCIL DOES NOT ACT

Changed the Fourth Street Sewer to the River, but There Are Others—Sons of Veterans Booming Their Organization. All the News of Wellsville.

The people who believe Wellsville should be as clean and well kept as any town in Ohio, are thinking seriously of sending a petition to the board of health, council or whatever may be found to be the responsible body.

"The change of the Fourth street sewer so the water will go into the river has been accomplished," said a well known resident, "but not until it was too late. There are other places, notably the end of the Fourth street gutter near the run. It has been filled with filth for months, and is a disease producer of the first water. There will be more cases of diphtheria down that way if the city does not do something in a hurry."

One can find these spots in many parts of town. They are so numerous that one prominent physician was heard to wonder why half of Wellsville was not in bed.

At the Shops.

One never hears anything of slow time at the shops these days, and no one is complaining. All departments are on 10 hours during the week and nine on Saturday, the regular time. It is believed the company has arranged its appropriation to keep on this line. There is an abundance of work, and officials say they have as much as they can do for many days.

William Daugherty, storekeeper at the shops, has returned to duty after an enforced absence. His health is much improved.

Engine 654 has been brought in for repairs. There are now a number of engines being overhauled.

Booming the Order.

The Sons of Veterans have decided to make the coming season one of profit and pleasure, and with that end in view are booming the order.

The membership numbers in the near neighborhood of 70, and an effort will be made to have every man at every meeting. For a time the attendance was not good, but leaders of the camp do not anticipate trouble in that direction again.

Got on the Platform.

Lawrence Stuller, of Hanover, was before Squire Mackenzie last night charged with violating the railroad platform ordinance.

Stuller was brought from Kensington where it was charged the law had been broken, and the squire assessed him \$9.10. It is not often the law is enforced, but the railroad company is making a strong move in that direction.

Increasing.

The morning and evening business of the street railway company seems to be increasing. In spite of the large number of people taken to Liverpool a few weeks ago it now seems there are many more.

Continued activity is noted among members of the board of trade, but not one of them will say a word. If they know anything they are keeping it to themselves.

The Wreck.

Engine 637 backed down the main track yesterday afternoon into a freight, and there was confusion and disaster. The household effects of an East End man were demolished, and one freight car was reduced to splinters, while another and the tender were seriously damaged.

She Will Get Well.

Mary, the 14-year-old daughter of Condner McGaren, of the Cleveland and Pittsburgh road, who has been ill for some time with diphtheria, is much improved today. Yesterday anti-toxin was given the child which bettered her condition. She is now out of danger.

the Cleveland and Pittsburg is at present enormous. The river division is booming, and the main line has its hands full taking care of people and freight. The Tuscarawas branch is also showing increased business.

Two Anecdotes.

Who does not know the "copper horse" at Windsor—that equestrian statue at the end of the long walk, to which (and back again) the local flyman always offers to drive the tourist? The queen was entertaining a great man, who in the afternoon walked from the castle to Cumberland lodge. At dinner her majesty, full, as always, of gracious solicitude for the comfort of her guests, said, "I hope you were not tired by your long walk?" "Oh, not at all, thank you, ma'am. I got a lift as far back as the copper horse." "As far as what?" inquired her majesty, in evident astonishment. "Oh, the copper horse, at the end of the long walk." "That's not a copper horse. That's my grandfather."

Lord R., preaching at the French exhibition, implored his hearers to come and drink of the eau de vie. —Manchester Guardian

A Woman's Wit.

A western judge was approached by a verdant couple who wanted to be married. The would be groom asked the price of tying the knot and was told it was \$1.

"Can't you take beeswax?" inquired the rustic.

"Yes," said the squire.

The wax was brought in and upon being weighed was found to be worth just 60 cents.

"Well," said the anxious groom, "tie the knot, and I'll fetch more wax next week."

"No, sir. I don't trust. That is against the rules of the office."

Slowly the disappointed youth turned to go out, saying, "Come, Sal, let's go."

"I say, mister," answered Sal, with a woman's wit, "can't you marry us as far as the wax will go?"

"Yes, I can and I will," responded the judge, laughing, and he did. —Exchange.

Not an Absolute Necessity.

"Only 14 quarts of milk for \$1 here- after?" exclaimed Ardup. "Well, we'll simply have to quit taking it, that's all. We can't afford it. People can live without milk."

And Ardup's indignation was so great that he did not cool off thoroughly until after he had gone down town and spent 50 cents playing billiards. —Chicago Tribune.

SEA GULL STOLE THE NEWS.

Swallowed a Report That Was Thrown Over the Ship's Side.

The record of the captain of the schooner Lucille from Seattle never reached the Merchants' Exchange in San Francisco because a greedy sea gull mistook the papers for food and swallowed them. It is customary when a vessel enters the harbor for the captain to deliver to the Merchants' Exchange messenger in a small boat a condensed account of his voyage. As the day was fine the messenger called out to the captain of the Lucille to throw his papers overboard.

As the man reached to catch them a sea gull swooped down and grabbed the package in its beak. It was pursued by a score of gulls, one of which seized the package and bolted it. Then all flew screaming away, and the messenger returned without his news. —New York Sun.

All Night on the Campus.

A scarcity of seats for the Yale-Harvard game is apparent this year. More applications have been made for the regular seats than Manager Bingham is able to fill. Season ticket holders are allowed to get two seats in the middle section, and each player gets a present of ten season tickets. Although there are 2,000 season tickets out, they are bringing \$3 apiece just for the privilege of purchasing seats and stands for 25,000 seats have been erected. The sale began on a recent Saturday, but at 10 o'clock on Thursday the line was formed. Before midnight 50 comfortable chairs had been placed along the walk leading into the yard, and as many students had wrapped themselves in all sorts of robes in the endeavor to keep warm. It was a jolly crowd, singing, laughing and joking. The jollity lasted till far into the night, and then the men turned over and tried to sleep. Some hired street gamins to relieve them. Others traded off. Others organized squads and each fellow did duty for two or three hours at a time. During Friday the line increased to 100. Newsboys held positions in the line which they refused to vacate until paid \$1. —New York Journal.

Dwarfing From Harsh Environment.

In Limousin there is a barren range of low hills which lies along the dividing line between the departments of Dordogne, Correze and Haute-Vienne, about half way between Perigueux and Limoges. The water courses show the location of these uplands. They extend over an area about 75 miles long and half as wide, wherein average human misery is most profound. Dense ignorance prevails. There is more illiteracy

than in any other part of France. The contrast in stature, even with the low average of all the surrounding region, is clearly marked by the dark tint. There are sporadic bits of equal diminutiveness elsewhere to the south and west, but none is so extended or so extreme. Two-thirds of the men are below 5 feet 3 inches in height in some of the communes, and the women are three or more inches shorter even than this. One man in ten is below 4 feet 11 inches in stature.

This is not due to race, for several racial types are equally stunted in this way within the same area. It is primarily due to generations of subjection to a harsh climate, to a soil which is worthless for agriculture, to a steady diet of boiled chestnuts and stagnant water and to insanitary dwellings in the deep, narrow and damp valleys. Still further proof may be found to show that these people are not stunted by any hereditary influence, for it has been shown that children born here, but who migrate and grow up elsewhere, are normal in height, while those born elsewhere, but who are subject to this environment during the growing period of youth, are proportionately dwarfed. —Popular Science Monthly.

Do Clocks Get Tired?

"Do clocks get tired?" said Mr. Bill- tops. "I imagine they do. I love to hear a clock tick. I suppose everybody does. We had a little clock that I used to keep in my own room. It stopped one day and I shook it up a little and it started on, but it soon stopped again, and after that it kept stopping, and sometimes it would take me ten minutes to shake it up so that it would go on and keep going. I suppose I spent on that clock as much time as would have paid for half a dozen clocks like it, and finally it stopped altogether and I gave it up and the little clock lay idle for months. I supposed that sooner or later we should throw it away, and I thought the only reason that we didn't was because we hate to throw anything away."

"But one day one of the children got hold of the clock and took the back off it to see what was the matter with it. You know what happens when children begin fooling with a clock. I never expected to hear the clock tick again, but I'm blessed if the shaver didn't make it go. What he did to it I don't know—nothing, I guess, except to oil it, and I suppose that was all it needed, or else it had simply tired and had wanted a rest, but it's going again now and ticking away like a good one." —New York Sun.

Of the 12,000 tons of ice consumed daily in Greater New York in the summer time about 20 per cent is artificial.

General Turr and the Neapolitans.

"Did you have any difficulty with the Neapolitans?" I asked. "None," said Turr. "The following episode will give you an idea of our relations: Demonstrations were the order of the day. I had only been governor of Naples two days when, looking out of my windows at the Palazzo Forestaria, I saw an immense crowd of about 10,000 persons coming along shouting, 'Death to the Bourbons!' I sent out to invite three of the ringleaders to confer with me as to what they wanted and what it was all about. One of them was Gambardella, a great leader among the fishermen, who informed me that they wanted 400 Bourbons whose names he had down in a list and handed to me (scorticarli). I said: 'Gentlemen, pray sit down and let us discuss the question. Now what do you think Europe would say when it hears that under the government of Garibaldi and Gambardella 400 Bourbons have been killed?'"

"But, my lord general," says he, 'do you not know the way in which we have been treated? I myself have been in prison and received 25 blows with a stick.'

"Why, my friend, I said, 'that is the very point. For having committed such like brutalities the government of the Bourbons has fallen. And if we imitated their example all we should prove is that we ourselves are unworthy of liberty. With these and similar words I succeeded in soothing their rage and from that moment Gambardella placed himself at the head of a new movement—in those days every one had to be at the head of some movement—and was in the habit of making me his counselor and acting according to my advice. Garibaldi got to know him later and liked him very much. But one morning the poor man was stabbed in the street.' —Contemporary Review.

FILTHY OPEN GUTTERS

Will Likely Kill More People In Wellsville

IF COUNCIL DOES NOT ACT

changed the Fourth Street Sewer to the River, but There Are Others—Sons of Veterans Booming Their Organization. All the News of Wellsville.

The people who believe Wellsville should be as clean and well kept as any town in Ohio, are thinking seriously of sending a petition to the board of health, council or whatever may be found to be the responsible body.

"The change of the Fourth street sewer so the water will go into the river has been accomplished," said a well known resident, "but not until it was too late. There are other places, notably the end of the Fourth street gutter near the run. It has been filled with filth for months, and is a disease producer of the first water. There will be more cases of diphtheria down that way if the city does not do something in a hurry."

One can find these spots in many parts of town. They are so numerous that one prominent physician was heard to wonder why half of Wellsville was not in bed.

At the Shops.

One never hears anything of slow time at the shops these days, and no one is complaining. All departments are on 10 hours during the week and nine on Saturday, the regular time. It is believed the company has arranged its appropriation to keep on this line. There is an abundance of work, and officials say they have as much as they can do for many days.

William Daugherty, storekeeper at the shops, has returned to duty after an enforced absence. His health is much improved.

Engine 654 has been brought in for repairs. There are now a number of engines being overhauled.

EAST LIVERPOOL, O., THURSDAY, NOV. 18.

This thing of annexing foreign territory to keep some other country from taking it, is a very good principle, particularly when we need the territory.

MR. BRYAN still lives in Nebraska, but even his own advanced methods for self advertisement are not keeping him prominently before the public. The public is tired of Mr. Bryan and content to let him rest for a few days.

If Tom Reed gives up his congressional job and takes up the political whip where Boss Platt dropped it, he will probably find that it is much easier to control congressmen than it is to manage a municipal constituency.

THE Dingley bill may be amended at the coming session of congress, for it has been found that it does not meet every expectation of its farmers, but there is little prospect of a change in the crockery schedule. That seems to suit everybody, except the importers.

THE selection of men who are to fill municipal offices should be characterized by the greatest care. In order that they may do their duty well they must not only possess a thorough knowledge of what is required of them, but they must be conscientious and honest, straightforward and reliable, men whose word is their bond and who will persecute none, but deal out equal justice to all.

THE Pennsylvania judge, who said he was sorry the law did not allow him to give illegal voters a bit of justice they would not forget in the remainder of their lives, is made of that stuff which best protects the rights of the people and preserves the Republic to generations unborn. More men of that calibre would root out the evil of illegal politics, and make every man's vote as good as the vote of that of every other man, preventing fraud and promoting honesty.

THE GARFIELD LAW.

An effort should be made to discover whether the Garfield law amounts to anything more than the paper on which it was printed. That it has been grossly violated appears without argument, but to the present there has been no effort in any part of the state to enforce it. The spirit of the law is all right. Its principle is just what Ohio and every other state in the country sadly needs. It should be tested and tested thoroughly to see whether it is a statutory ornament or a measure that will stand the closest scrutiny of the courts.

ANOTHER LAW GONE.

The next legislature can best serve the people of Ohio by looking after the quality and not the quantity of the legislation it sees fit to enact. The supreme court has been busy for months invalidating laws which their framers probably believed would bear the test of time, but which have appeared flimsy and worthless when taken before the men who know the law.

The last example is the Clark bill, which gave old soldiers the preference when positions were to be filled in counties or municipalities. For a time it answered the purpose. Veterans builded their hopes upon it and were satisfied. Some appointments were made with it as the basis. At length someone determined to test it, and the story is soon told.

The lesson is clear. Either the people of Ohio must elect better men, brainier men, to the legislature, or they must instruct those they do send to Columbus in the first book of common sense. It is very evident that some of them need it.

A New Business.

Squire E. W. Hill today purchased the real estate business of Hill & Harris.

TWO DELEGATES CHOSEN

To Represent Trades Council
at Columbus.

NINE NEW MEMBERS SEATED

Resolutions Will Be Adopted at the Next Meeting Which Will Show the Sentiment of Union Workmen of the City on Many Important Questions.

Trades council last evening held an important session.

After the usual routine business had been transacted nine new delegates were seated. They are as follows: J. W. Cornelius and Fred Irwin, Typographical union; Benjamin Flowers, Carpenters' union; F. Laufenberger, Tailors' union; Ralph Scragg, William Leibschner and William Miller, local No. 22, and Joshua Webber, local No. 4.

The tailors reported that they had succeeded in getting all but three merchant tailors to sign the new scale, and the shoemakers reported one non-union shoe shop. The grievance committee reported a satisfactory adjustment of the trouble concerning the early closing law, and it is now believed every merchant in the city is living up to the rule. The final report of the Miners Relief committee was received.

A communication was read from the Ohio Federation of Labor asking that delegates be sent to the annual convention to be held in Columbus, Tuesday, Dec. 7. The rules for the convention have been changed, and one delegate is given the power to cast the same number of ballots as the people he represents. It was decided to send two delegates this year instead of three. There was a contest over the selection of delegates which resulted in the election of J. J. Weisend and John Reark, with E. W. Hill and G. S. Miller as alternates.

The financial distress of the public library was discussed, and \$100 was donated.

The next meeting of the council will be interesting, as resolutions will be passed instructing the delegates what course to pursue at the Columbus convention. The sentiment of the local council on convict labor, arbitration and the changing of the constitution, will be expressed.

TWO CASES

Claimed the Attention of Mayor Gilbert Today.

Two arrests were made last night, and the offenders were not heard this morning.

Theo Pippin was put in the coop late last evening for having in his possession some china said to belong to an uptown restaurant. He will stand trial.

A man by the name of Clark was arrested last night. Clark claims to be an ex-pugilist and was found sleeping in the doorway of the Thompson building in Broadway.

Downard and Kennedy were released, and Janitor Wolf and Will Davis are the only old prisoners.

Opened a Sewer.

Wharfmaster Lloyd put a force of men at work this morning, cleaning the Broadway sewer below the Cleveland and Pittsburg tracks. The sewer during the recent rain became clogged, and the cleaning was one of necessity.

Cheaper This Year.

A car containing 720 bushels of potatoes was received in the local yards last night. They sold for 65 cents. The same dealer last year sold them three bushels for a dollar.

Home From the West.

Manager Hoefgen, of the street railway company, returned home from an extended western trip last evening. He will remain in the city the remainder of the week.

A Hint to People.

Harry Wagner, restaurateur, Sixth street, said he had corns. Tried U-No Corn Cure and picked the corns out. *

An Old Age.

Moralists and philosophers have done their best, when they have themselves reached that time of life, to eulogize "old age," but they do not deceive even the young. ("These old gentlemen," says youth with its callow cynicism, "are foxes who have lost their tails.") They have done the same thing with poverty, and with the same ill success. It has had no exhilarating effect upon poor people. The reasons why old men have written in praise of old age are not far to seek; they say with Johnson, "Do not let us discourage one another." They are in for it, and they make the best of it. It is not well to cry stinking fish. Moreover, there is a natural tendency among well principled persons to make light of the ills of humanity. They fancy they are paying a compliment to Providence, and perhaps even conciliating it.

There are many old men who say, and quite truthfully, that they would not be young again if they could, but what they mean is not, of course, that they would not exchange weakness for strength and disillusion for hope, but that they have no desire to live their lives over again. The clinging to existence that we so often see in even very old men does not arise from love of it. Pope, sitting by Sir Godfrey Kneller's deathbed and finding him much dispirited, told him he had been a good man and would doubtless go to heaven. "Ah, my good friend," was the deplorable but pathetic reply, "I wish Ge would let me stay at Whitton." It was not, however, the attractions of Whitton that he had in his mind.—James Payn in Nineteenth Century

Humors of Shorthand.

The conference of shorthand writers in connection with the celebration of the diamond jubilee of Pitman's system discussed some unusual applications of shorthand. One fervid gentleman enlarged on the advantages of the "swift art" as a help to courtship. How much gushing affection, the speaker asked, evaporates in the process of writing love letters in long hand? The shorthand writing swain, penning his tender epistles to the phonographic maiden, is free from this difficulty. His intensest feelings he can express in fluent strokes and curves the moment they stir within him. This suggestion brought up another speaker, who favored his hearers with a little reminiscence. In remote days he had desired to put to a certain young lady a certain question to which he felt difficulty in giving utterance. A happy thought struck him—he would put the question on paper in the symbols of shorthand. This would be mysterious to the lady; she would ask him to read the question, and his difficulties would at once disappear. Man proposes, but things do not always work out as he desires. The young lady exhibited no curiosity, but quietly pocketed the shorthand. At the next interview with her lover she calmly told him that she had unraveled his message and was prepared to give an affirmative reply. The wily maiden had sent the shorthand proposal to Sir Isaac Pitman, who had supplied her with the translation.—Westminster Gazette.

Snakes That Like Thunder.

One of the wonders of the bare, sandy plains of New Mexico is the thunder snakes. They are by no means common, yet they are often encountered by prairie travelers, especially before and after thunderstorms. Flashes of lightning and claps of thunder, which are so terrifying to bipeds and quadrupeds, seem to have the greatest charm and delight for these members of the serpent family. Whenever a thunderstorm comes up they have a regular picnic. They come crawling out of holes, from behind rocks and rotten stumps and enjoy the fun while it lasts. Their nature is quarrelsome, their character fierce, and they are aggressive in a high degree, although their markings are very beautiful. They are not poisonous, however; their bark is worse than their bite.—Chicago Record.

Leighton's "Cimabue."

In describing a visit paid to the late Lord Leighton, Mrs. Tooley said that the artist on that occasion referred to the success of his first picture of note, "Cimabue," and to the fact, which evidently still pained him, that his next picture, "Orpheus," was greatly ridiculed. "Where is the picture now?" he was asked. "Don't I wish I knew!" he replied. "It would be worth a fortune to me at the present time." And that was all the reference he made to it.

The curious part of the incident, however, lies in the fact that after his death the canvas of this very picture was discovered rolled up and thrown away in the coal cellar.—Strand Magazine.

Resented.

"That escaped criminal seems to have had rather the best of it," remarked the talkative friend.

"Not at all," replied the detective, drawing himself up haughtily. "We've got him so frightened he doesn't dare show his face where we are."—Washington Star

EAST LIVERPOOL, O., THURSDAY, NOV. 18.

Thus thing of annexing foreign territory to keep some other country from taking it, is a very good principle, particularly when we need the territory.

MR. BRYAN still lives in Nebraska, but even his own advanced methods for self advertisement are not keeping him prominently before the public. The public is tired of Mr. Bryan and content to let him rest for a few days.

If Tom Reed gives up his congressional job and takes up the political whip where Boss Platt dropped it, he will probably find that it is much easier to control congressmen than it is to manage a municipal constituency.

THE Dingley bill may be amended at the coming session of congress, for it has been found that it does not meet every expectation of its farmers, but there is little prospect of a change in the crockery schedule. That seems to suit everybody, except the importers.

THE selection of men who are to fill municipal offices should be characterized by the greatest care. In order that they may do their duty well they must not only possess a thorough knowledge of what is required of them, but they must be conscientious and honest, straightforward and reliable, men whose word is their bond and who will persecute none, but deal out equal justice to all.

THE Pennsylvania judge, who said he was sorry the law did not allow him to give illegal voters a bit of justice they would not forget in the remainder of their lives, is made of that stuff which best protects the rights of the people and preserves the Republic to generations unborn. More men of that calibre would root out the evil of illegal politics, and make every man's vote as good as the vote of that of every other man, preventing fraud and promoting honesty.

THE GARFIELD LAW.

An effort should be made to discover whether the Garfield law amounts to anything more than the paper on which it was printed. That it has been grossly violated appears without argument, but to the present there has been no effort in any part of the state to enforce it. The spirit of the law is all right. Its principle is just what Ohio and every other state in the country sadly needs. It should be tested and tested thoroughly to see whether it is a statutory ornament or a measure that will stand the closest scrutiny of the courts.

ANOTHER LAW GONE.

The next legislature can best serve the people of Ohio by looking after the quality and not the quantity of the legislation it sees fit to enact. The supreme court has been busy for months invalidating laws which their framers probably believed would bear the test of time, but which have appeared flimsy and worthless when taken before the men who know the law.

The last example is the Clark bill, which gave old soldiers the preference when positions were to be filled in counties or municipalities. For a time it answered the purpose. Veterans builded their hopes upon it and were satisfied. Some appointments were made with it as the basis. At length someone determined to test it, and the story is soon told.

The lesson is clear. Either the people of Ohio must elect better men, brainier men, to the legislature, or they must instruct those they do send to Columbus in the first book of common sense. It is very evident that some of them need it.

A New Business.

Squire E. W. Hill today purchased the real estate business of Hill & Harris.

TWO DELEGATES CHOSEN

To Represent Trades Council at Columbus.

NINE NEW MEMBERS SEATED

Resolutions Will Be Adopted at the Next Meeting Which Will Show the Sentiment of Union Workmen of the City on Many Important Questions.

Trades council last evening held an important session.

After the usual routine business had been transacted nine new delegates were seated. They are as follows: J. W. Cornelius and Fred Irwin, Typographical union; Benjamin Flowers, Carpenters' union; F. Laufenberger, Tailors' union; Ralph Scragg, William Leibschnor and William Miller, local No. 22, and Joshua Webber, local No. 4.

The tailors reported that they had succeeded in getting all but three merchant tailors to sign the new scale, and the shoemakers reported one non-union shoe shop. The grievance committee reported a satisfactory adjustment of the trouble concerning the early closing law, and it is now believed every merchant in the city is living up to the rule. The final report of the Miners Relief committee was received.

A communication was read from the Ohio Federation of Labor asking that delegates be sent to the annual convention to be held in Columbus, Tuesday, Dec. 7. The rules for the convention have been changed, and one delegate is given the power to cast the same number of ballots as the people he represents. It was decided to send two delegates this year instead of three. There was a contest over the selection of delegates which resulted in the election of J. J. Weisend and John Reark, with E. W. Hill and G. S. Miller as alternates.

The financial distress of the public library was discussed, and \$100 was donated.

The next meeting of the council will be interesting, as resolutions will be passed instructing the delegates what course to pursue at the Columbus convention. The sentiment of the local council on convict labor, arbitration and the changing of the constitution, will be expressed.

KINNEY WAS CONVICTED

The Jury Was Out Only An Hour.

HEAVY PENALTY AWAITS HIM

If the Court Decides That He Shall Not Have a New Trial—Testimony of the Defense Was to Show the Sanity of Poor Ada Everson.

LISBON, Nov. 18.—[Special]—The trial of Hudson B. Kinney unfolded a succession of events which had a noticeable effect upon all who heard the testimony. The arguments were commenced at 8:15 o'clock last night, and were limited to 45 minutes for each side.

Mrs. G. W. Spahr, widow of the late Doctor Spahr, of Fredericktown, was called by the state, and testified that Miss Everson was brought to her home in August 1896. She was hysterical, stated the witness, and suffered with pains in her head and talked irrationally. Kinney called on her several times while she was in Fredericktown.

Mrs. John Beck, Squire Rose and Constable Lyon all testified that Kinney had told them he knew Miss Everson had been in the Toledo asylum, and he didn't know but what she was crazy yet.

Miss Everson, the girl's sister, said that she had talked to Kinney in regard to her mental condition. Doctor Andrews and Doctor Myers were put on the stand, the former testifying to the efforts of both parties to obtain medicine from him, while the latter gave evidence of the frenzied condition of the girl.

At 3 o'clock yesterday the case was dropped to await the arrival of Doctor Detchon. He had missed the train at Alliance. At 7 o'clock he was called, and said Kinney had called at his office a number of times last January telling him he was in trouble. She also called for examination, and he saw she was not in her right mind. Kinney, he said, told him he had knowledge of her mental condition.

The defense opened the case late in the afternoon, basing its claims solely on the alleged ignorance of Kinney as to the mental condition of Miss Everson. The witnesses called were Samuel Johnson, Sr., Frank Johnson, Lorenzo Buckley, John Lowers, John Walker, Max Hineman, Benjamin Grafton, Joseph Douglas, Irwin Brown, May Fickler, John Johnston, John Smith. They testified that they had not in their acquaintance with Miss Everson noticed any mental derangement. Doctor Frank Moore and Dr. T. B. Marquis were subpoenaed late last evening, and gave expert testimony for the defense.

The jury was charged this morning at 10 o'clock, and on the first ballot stood 10 for conviction and two for acquittal. This continued for an hour when the ballot showed all for conviction.

Kinney was not sentenced today. The law provides not less than three and not more than 10 years in the penitentiary as punishment. A motion for a new trial will be made.

COAL FLEET PASSING.

Thousands of Bushels of Coal Are Moving South.

The coming of barge water was doubtful during a part of yesterday, but early in the afternoon a sufficient amount of water was thought to be in the channel to allow light tows to be sent south, and many boat owners made the most of it. About 65 boats were said to be ready to go out. The cold wave seems to have spent its force. Warmer weather and more rain is promised.

The water at the wharf at noon today registered 9.2 feet and rising slowly. During the night and today the following boats started for southern points: Bertha, three barges and one flat; B. D. Wood, five barges and one flat; Pacific No. 2, seven barges and eight flats; Little Fred, four barges and two light boats; Advance, three barges; Victor, four barges; Delta, five barges and two flats; Enterprise six barges and two flats; Dick Fulton, six barges and three flats; Charley Clark, five barges and Little Dick, five barges and one flat; Fred Wilson, 6 barges and two flats; Belle McGowan, six barges; William G. Horner, five barges and one flat and Princess, four barges.

The Bedford is due down tonight at 10:30 o'clock, and the Ben Hur passed up. The last packet had a good trip of both freight and passengers. The Lorena passed up at noon. The Keystone State is making fast time on the trip south. Business brisk.

Moved to Town.

John Grafton and family yesterday moved to the city from Smith's Ferry, where they spent the summer.

Royal makes the food pure, wholesome and delicious.

PERSONAL MENTION.

—S. C. Whittenberger is in Cleveland on business.

—Daniel Ogilvie was a Pittsburg visitor today.

—Adolph Welch and J. W. Davis spent the day in Irondale.

—Miss M. B. Dunbar, of Burgettstown, Pa., is visiting her brother, J. G. Dunbar.

—Joseph G. Lee is in Salem today visiting his brother, who has been dangerously ill.

—M. A. Reed returned to his home in Allegheny this morning. He was the guest of John Anderson.

—Miss Eliza McLane, who has been visiting friends in East End, returned yesterday to her home in Toronto.

A BIG DAMAGE SUIT

Was Taken From the Docket In Common Pleas Court.

LISBON, O.—[Special]—William Brunt has appealed to common pleas court a case recently decided against him in Squire Manley's court in favor of W. C. Allison. Suit was brought to recover on two notes of \$15 each.

Emily Mountford began action against Annie and Ethel Burrows to recover possession of a six foot strip of land between her land and that belonging to the defendants. She sued for it several months ago, and when the matter was heard before Judge Billingsley as referee the case was decided against her.

Alvin Doughman, of East Rochester, who has been in the Lisbon jail charged with cutting his brother with intent to kill, is seriously ill, and a physician was called last night. He has been confined in the basement.

The \$10,000 damage suit of Moody Coburn against the East Liverpool and Wellsville street railway was dismissed. It grew out of the accident at the Horn switch July 8, 1895.

James R. Brown and Annie G. Graham, prominent people of Salem, were given a marriage license today.

AT ODDS.

Reverend Norris and His Session Do Not Agree.

The case of Rev. J. H. Norris will be considered at a congregational meeting to be held at his church in Pittsburg this evening.

Last night the session voted to invite Rev. S. S. Gilson to act as moderator of the meeting, and has notified the elders that he will accept the position.

The Pittsburg Times of this morning says that Reverend Norris last night overruled the motion to invite Doctor Gilson to be present, but Elder Johnston put the motion and declared it carried. Several members argued that it would cause Mr. Norris embarrassment to be present, but he declared that it would not.

The meeting tonight will likely be animated, as it will decide whether the reverend gentleman is to be retained in his present position.

THOSE WHO GAVE

To Help the Striking Miners When They Needed It.

The report of the committee having in charge collection of funds for the striking miners was given at Trades council last night by Squire Hill as follows:

Mass meeting \$76.95, saggarmaker's \$5, dippers local \$10, carpenter's union \$5, musical union \$10, stage hands \$5, glass house boys \$5, jigermen \$5, subscription papers in potteries \$491, NEWS REVIEW chapel \$5, personal contributions \$17.35, total \$635.30.

Recovered the Check.

Howard Sloan while enroute to Pittsburg Tuesday morning lost a \$30 check. It was found in a passenger coach, and this morning was returned to Agent Hill who gave it to the owner.

Malaga grapes at T. B. Murphy's.

CAN'T FIND THE GIRL

Supt. Southworth Came Here Today.

A TRACE FOUND NEAR LEETONIA

Trainmen Saw a Child Tramping Along the Track Near That Place This Morning. The Clue Is Being Followed and May Result In Something Important.

The mystery surrounding the disappearance of little Emma Volk has not yet been cleared up, in spite of the fact that every effort has been made to find her.

Superintendent Southworth, of the Fairmount home, came here today and continued the search. In Wellsville he chanced to see Mr. Wilson, at whose home the little one lived before she was brought to East Liverpool, and learned that they had seen nothing of the child. The Wilsons live in the country seven miles from Wellsville.

While in Alliance this morning Mr. Southworth learned from trainmen on the Fort Wayne road that they had seen a little girl about 12 years old walking along the railroad near Leetonia. Her shoes were worn out, and she turned her head away as the train passed as though she had no desire to have anyone see her face.

Mr. Southworth at once wired the marshal of Leetonia, and is now anxiously awaiting a reply.

Mr. and Mrs. Tucker have not heard a word from the lost child and are very anxious.

LADIES AUXILIARY.

The Members Thereof Return Thanks to Patrons.

The Ladies Auxiliary to the Young Men's Christian association, return warm thanks to a generous public. At the late entertainment, known as the "Tom Thumb Wedding," there was netted the snug sum of \$103.52, and \$100 of this was given to the parent branch. The Auxiliary has a number of royal workers in its ranks and they render loyal service to the Young Men's Christian association, aiding it in every manner, as only true Christian women can, and the leaders of the main organization recognize this very pleasing fact.

WELL KNOWN HERE.

Royal J. Welch Was Buried In Salineville Today.

Royal J. Welch, a well known young carpenter of Allegheny, died Tuesday evening. He had been ill with typhoid fever for only a week. Mr. Welch was born in Salineville 28 years ago, and learned the carpenter trade in Pittsburg. At night he studied drafting and became very proficient. The remains were taken to Salineville where they were interred today.

Deceased was well known here, and was the son of Byron Welch.

Got the Wrong Man.

A resident of West Market street has recently received several letters from a woman residing in Allegheny. She is writing to her husband, and evidently believes he is in East Liverpool. Since he bears the name of the man who receives the letters, the cause of the error can easily be seen. The letters have been returned to the postoffice.

A Bowling Alley.

Twenty feet of ground in the rear of the Grand Opera House has been purchased from J. A. Norris, and work will be commenced in the near future on the erection of a first class bowling alley.

It will be equipped with the latest improvements, and will be the finest in this part of the state.

The Rovers at Homestead.

The Rovers will go to Homestead Saturday with a strong team and are confident of winning. The lineup is as follows: Forwards, Eardley, Hodgkinson, Stanway, Jones, Hernan; halfbacks, W. Beech, Tiffany, Shaw, Farrel; fullbacks, Pope, C. Beech; goal, Burbick.

About the Same.

The deputy tax collectors yesterday took in something over \$5,000 and the business today will be about the same.

This is not a perceptible increase over the business done last year.

The Odd Fellow's Party.

The Odd Fellows are making elaborate preparations for the party to be given in their rooms this evening. Only members of the order and families are invited.

Fumigated a House.

Sanitary Officer Burgess today fumigated the residence of B. M. Louthan, the diphtheria patient having entirely recovered.

Light with Mica Chimney	1.75
Light with Phoenix Chimney	1.65
Mantle	40
Mica Chimney	35
No. 74 Shade	20

THE OHIO VALLEY GAS CO., 227 Washington Street.

Won on a Bluff.

"That case in Maine recalls an incident in my own experience," said the lawyer who profits largely upon the matrimonial troubles of others. "There was a rich widow living in the town where I began practice and after her weeds were discarded she was given over to the lighter ways of society. She was especially prone to flirtation at her favorite summer resort and her engagements there were held as lightly as those of the veriest summer girl. Her return home from a summer of unusual brilliance was followed in a short time by a respectable looking gentleman of 30 who showed his business qualities by walking into my office and putting down a handsome retainer before talking business."

"Now, sir," he stated with admirable directness, "I want you to begin a \$50,000 suit against this wealthy widow. She gave me an unqualified promise of marriage and now refuses to make it good. Men have hearts to break and pride to humiliate, just as women have, and I propose to strike a blow for my sex."

"Would you compromise?"

"Yes, in case you so advise, but not for less than half the sum named and a written apology from her. If it would help any in the matter of a settlement out of court, I have the affidavits of half a dozen poor devils that she has thrown over from time to time."

"The widow stormed and fumed and then capitulated. She couldn't face the prospect of having her foolish flirtations blazoned before the public. After she had wedded again and gone abroad, my client made this admission to me: 'I was never engaged to that widow and had she proposed to settle by marrying me I would have run. I took chances on her forgetting just whom she did promise to marry and I won.'"—Detroit Free Press.

The First Cabs.

Like the buses, cabs were introduced from Paris, but some ten years earlier, or, say, about 1820. Although its type was not at all settled, the cabriolet was a little, hoodshaped vehicle, quite above its axle, and therefore very high and difficult to get into. It was only intended to carry one passenger, though two slim ones who did not mind squeezing could generally manage to find room. The driver sat on a little shelf or perch on the right hand side, quite outside the body of the machine. This was an English innovation. In Paris driver and fare shared the same seat, and this was continued here for private cabriolets.

The ingenious Mr. Joseph Hansom, who was an architect of Hinckley Leicestershire, however, bethought him in 1834 that if he used larger wheels and suspended the body of the cab between them, the vehicle would hold two easily, or three at a pinch, would balance better, be easier to draw, and safer if the horse fell. Further improved by putting the driver behind and the axle under the seat, the invention soon made its way, and by the fifties the hansom was as much the favorite cab of London as it is today. The original patent is dated Dec. 23, 1834. —Gentleman's Magazine.

American Forests Disappearing.

A statistician computes that in 50 years time there will not be a single tree in this country. Each year it takes 500,000 acres of timber to supply sleepers for the railways.

Skirmishing.

He (cautiously)—If I should propose, would you say "Yes?" She (more cautiously)—If you knew I would say "Yes," would you propose? —Rehoboth Sunday Herald.

There is an extensive trade carried on between Great Britain and Belgium in old wornout horses, which are shipped in a most pitiful condition to Antwerp and thence to English ports.

HE DID.

"I'll marry you," said Jack at the start as he stole a shy glance at the maid of his heart.

He picked up the niblick, the brass and cleek. She grasped her pet driver, too busy to speak. Her club, soon she soled it, a hazard within. And sat on a bumper o'ercome with chagrin.

"How are you?" cried Muggins. "Four down," she replied.

"Never mind," said a whisper. "Will you be my bride?"

'Twas Jack who had spoken. "Why, yes!" answered she.

"I'll marry you, Jack, if you'll caddy for me."

—Harvey Wickham in New York Sun.

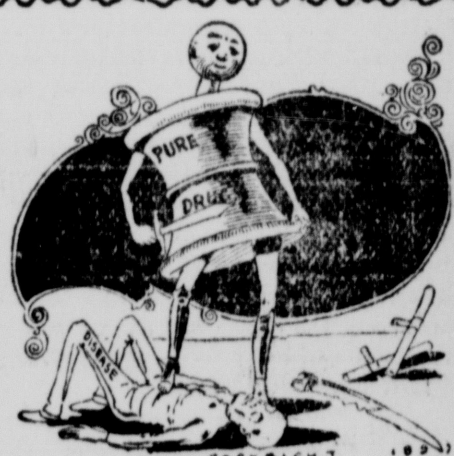

MILLIONS OF MEN AND WOMEN

Have kidney and bladder troubles. Often it is a tired muscle ache, sometimes its seriousness is not appreciated. Take warning, for results may mean years of suffering, or death. Utah Kidney Beans will remove the kidney trouble, cure the aching back, remove the tired-out feeling, cramps and pains so common to women. They relieve congestion and soothe the irritated parts, give a healthy action to the bladder, and tone up the urinary organs. Utah Kidney Beans, discovered and perfected by THE TURNERS OF Philadelphia.

TAKEZINA—The only ointment for skin troubles. Cures piles.

TURNER'S LITTLE LIVER TURNERS—A very small pill. Turns your liver.

KINNEY WAS CONVICTED

The Jury Was Out Only An Hour.

HEAVY PENALTY AWAITS HIM

If the Court Decides That He Shall Not Have a New Trial—Testimony of the Defense Was to Show the Sanity of Poor Ada Everson.

LISBON, Nov. 18.—[Special]—The trial of Hudson B. Kinney unfolded a succession of events which had a noticeable effect upon all who heard the testimony. The arguments were commenced at 8:15 o'clock last night, and were limited to 45 minutes for each side.

Mrs. G. W. Spahr, widow of the late Doctor Spahr, of Fredericktown, was called by the state, and testified that Miss Everson was brought to her home in August 1896. She was hysterical, stated the witness, and suffered with pains in her head and talked irrationally. Kinney called on her several times while she was in Fredericktown.

Mrs. John Beck, Squire Rose and Constable Lyon all testified that Kinney had told them he knew Miss Everson had been in the Toledo asylum, and he didn't know but what she was crazy yet.

Miss Everson, the girl's sister, said that she had talked to Kinney in regard to her mental condition. Doctor Andrews and Doctor Myers were put on the stand, the former testifying to the efforts of both parties to obtain medicine from him, while the latter gave evidence of the frenzied condition of the girl.

At 3 o'clock yesterday the case was dropped to await the arrival of Doctor Detchon. He had missed the train at Alliance. At 7 o'clock he was called, and said Kinney had called at his office a number of times last January telling him he was in trouble. She also called for examination, and he saw she was not in her right mind. Kinney, he said, told him he had knowledge of her mental condition.

The defense opened the case late in the afternoon, basing its claims solely on the alleged ignorance of Kinney as to the mental condition of Miss Everson. The witnesses called were Samuel Johnson, Sr., Frank Johnson, Lorenzo Buckley, John Lowers, John Walker, Max Hineman, Benjamin Grafton, Joseph Douglas, Irwin Brown, May Fickler, John Johnston, John Smith. They testified that they had not in their acquaintance with Miss Everson noticed any mental derangement. Doctor Frank Moore and Dr. T. B. Marquis were subpoenaed late last evening, and gave expert testimony for the defense.

The jury was charged this morning at 10 o'clock, and on the first ballot stood 10 for conviction and two for acquittal. This continued for an hour when the ballot showed all for conviction.

Kinney was not sentenced today. The law provides not less than three and not more than 10 years in the penitentiary as punishment. A motion for a new trial will be made.

COAL FLEET PASSING.

Thousands of Bushels of Coal Are Moving South.

The coming of barge water was doubtful during a part of yesterday, but early in the afternoon a sufficient amount of water was thought to be in the channel to allow light tows to be sent south, and many boat owners made the most of it. About 65 boats were said to be ready to go out. The cold wave seems to have spent its force. Warmer weather and more rain is promised.

The water at the wharf at noon today registered 9.2 feet and rising slowly. During the night and today the following boats started for southern points: Bertha, three barges and one flat; B. D. Wood, five barges and one flat; Pacific No. 2, seven barges and eight flats; Little Fred, four barges and two light boats; Advance, three barges; Victor, four barges; Delta, five barges and two flats; Enterprise six barges and two flats; Dick Fulton, six barges and three flats; Charley Clark, 5 barges Little Dick, five barges and one flat; Fred Wilson, 6 barges and two flats; Belle McGowan, six barges; William G. Horner, five barges and one flat and Princess, four barges.

The Bedford is due down tonight at 10:30 o'clock, and the Ben Hur passed up. The last packet had a good trip of both freight and passengers. The Lorena passed up at noon. The Keystone State is making fast time on the trip south. Business brisk.

Moved to Town.

John Grafton and family yesterday moved to the city from Smith's Ferry, where they spent the summer.

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

PERSONAL MENTION.

—S. C. Whittenberger is in Cleveland on business.

—Daniel Ogilvie was a Pittsburg visitor today.

—Adolph Welch and J. W. Davis spent the day in Irondale.

—Miss M. B. Dunbar, of Burgettstown, Pa., is visiting her brother, J. G. Dunbar.

—Joseph G. Lee is in Salem today visiting his brother, who has been dangerously ill.

—M. A. Reed returned to his home in Allegheny this morning. He was the guest of John Anderson.

—Miss Eliza McLane, who has been visiting friends in East End, returned yesterday to her home in Toronto.

A BIG DAMAGE SUIT

Was Taken From the Docket in Common Pleas Court.

LISBON, O.—[Special]—William Brunt has appealed to common pleas court a case recently decided against him in Squire Manley's court in favor of W. C. Allison. Suit was brought to recover on two notes of \$15 each.

Emily Mountford began action against Annie and Ethel Burrows to recover possession of a six foot strip of land between her land and that belonging to the defendants. She sued for it several months ago, and when the matter was heard before Judge Billingsley as referee the case was decided against her.

Alvin Doughman, of East Rochester, who has been in the Lisbon jail charged with cutting his brother with intent to kill, is seriously ill, and a physician was called last night. He has been confined in the basement.

The \$10,000 damage suit of Moody Coburn against the East Liverpool and Wellsville street railway was dismissed. It grew out of the accident at the Horn switch July 8, 1895.

James R. Brown and Annie G. Graham, prominent people of Salem, were given a marriage license today.

AT ODDS.

Reverend Norris and His Session Do Not Agree.

The case of Rev. J. H. Norris will be considered at a congregational meeting to be held at his church in Pittsburg this evening.

Last night the session voted to invite Rev. S. S. Gilson to act as moderator of the meeting, and has notified the elders that he will accept the position.

The Pittsburg Times of this morning says that Reverend Norris last night overruled the motion to invite Doctor Gilson to be present, but Elder Johnston put the motion and declared it carried. Several members argued that it would cause Mr. Norris embarrassment to be present, but he declared that it would not.

The meeting tonight will likely be animated, as it will decide whether the reverend gentleman is to be retained in his present position.

THOSE WHO GAVE

To Help the Striking Miners When They Needed It.

The report of the committee having in charge collection of funds for the striking miners was given at Trades council last night by Squire Hill as follows:

Mass meeting \$76.95, saggarmaker's \$5, dippers local \$10, carpenter's union \$5, musical union \$10, stage hands \$5, glass house boys \$5, jiggermen \$5, subscription papers in potteries \$491, NEWS REVIEW chapel \$5, personal contributions \$17.35, total \$635.30.

Recovered the Check.

Howard Sloan while enroute to Pittsburg Tuesday morning lost a \$30 check. It was found in a passenger coach, and this morning was returned to Agent Hill who gave it to the owner.

Malaga grapes at T. B. Murphy's.

CAN'T FIND THE GIRL

Supt. Southworth Came Here Today.

A TRACE FOUND NEAR LEETONIA

Trainmen Saw a Child Tramping Along the Track Near That Place This Morning. The Clue Is Being Followed and May Result In Something Important.

The mystery surrounding the disappearance of little Emma Volk has not yet been cleared up, in spite of the fact that every effort has been made to find her.

Superintendent Southworth, of the Fairmount home, came here today and continued the search. In Wellsville he chanced to see Mr. Wilson, at whose home the little one lived before she was brought to East Liverpool, and learned that they had seen nothing of the child. The Wilsons live in the country seven miles from Wellsville.

While in Alliance this morning Mr. Southworth learned from trainmen on the Fort Wayne road that they had seen a little girl about 12 years old walking along the railroad near Leetonia. Her shoes were worn out, and she turned her head away as the train passed as though she had no desire to have anyone see her face.

Mr. Southworth at once wired the marshal of Leetonia, and is now anxiously awaiting a reply.

Mr. and Mrs. Tucker have not heard a word from the lost child and are very anxious.

LADIES AUXILIARY.

The Members Thereof Return Thanks to Patrons.

The Ladies Auxiliary to the Young Men's Christian association, return warm thanks to a generous public. At the late entertainment, known as the "Tom Thumb Weddigg," there was netted the snug sum of \$103.52, and \$100 of this was given to the parent branch. The Auxiliary has a number of royal workers in its ranks and they render loyal service to the Young Men's Christian association, aiding it in every manner, as only true Christian women can, and the leaders of the main organization recognize this very pleasing fact.

WELL KNOWN HERE.

Royal J. Welch Was Buried In Salineville Today.

Royal J. Welch, a well known young carpenter of Allegheny, died Tuesday evening. He had been ill with typhoid fever for only a week. Mr. Welch was born in Salineville 28 years ago, and learned the carpenter trade in Pittsburg. At night he studied drafting and became very proficient. The remains were taken to Salineville where they were interred today.

Deceased was well known here, and was the son of Byron Welch.

Got the Wrong Man.

A resident of West Market street has recently received several letters from a woman residing in Allegheny. She is writing to her husband, and evidently believes he is in East Liverpool. Since he bears the name of the man who receives the letters, the cause of the error can easily be seen. The letters have been returned to the postoffice.

A Bowling Alley.

Twenty feet of ground in the rear of the Grand Opera House has been purchased from J. A. Norris, and work will be commenced in the near future on the erection of a first class bowling alley.

It will be equipped with the latest improvements, and will be the finest in this part of the state.

The Rovers at Homestead.

The Rovers will go to Homestead Saturday with a strong team and are confident of winning. The lineup is as follows: Forwards, Eardley, Hodgkinson, Stanway, Jones, Hernan; halfbacks, W. Beech, Tiffany, Shaw, Farrel; fullbacks, Pope, C. Beech; goal, Burbick.

About the Same.

The deputy tax collectors yesterday took in something over \$5,000 and the business today will be about the same.

This is not a preceptible increase over the business done last year.

The Odd Fellow's Party.

The Odd Fellows are making elaborate preparations for the party to be given in their rooms this evening. Only members of the order and families are invited.

Fumigated a House.

Sanitary Officer Burgess today fumigated the residence of B. M. Louthan, the diphtheria patient having entirely recovered.

Won on a Bluff.

"That case in Maine recalls an incident in my own experience," said the lawyer who profits largely upon the matrimonial troubles of others. "There was a rich widow living in the town where I began practice and after her weeds were discarded she was given over to the lighter ways of society. She was especially prone to flirtation at her favorite summer resort and her engagements there were held as lightly as those of the veriest summer girl. Her return home from a summer of unusual brilliance was followed in a short time by a respectable looking gentleman of 30 who showed his business qualities by walking into my office and putting down a handsome retainer before talking business.

"Now, sir, he stated with admirable directness, 'I want you to begin a \$50,000 suit against this wealthy widow. She gave me an unqualified promise of marriage and now refuses to make it good. Men have hearts to break and pride to humiliate, just as women have, and I propose to strike a blow for my sex.'

"Would you compromise?" "Yes, in case you so advise, but not for less than half the sum named and a written apology from her. If it would help any in the matter of a settlement out of court, I have the affidavits of half a dozen poor devils that she has thrown over from time to time."

"The widow stormed and fumed and then capitulated. She couldn't face the prospect of having her foolish flirtations blazoned before the public. After she had wedded again and gone abroad my client made this admission to me: 'I was never engaged to that widow and had she proposed to settle by marrying me I would have run. I took chances on her forgetting just whom she did promise to marry and I won.'—Detroit Free Press.

The First Cabs.

Like the buses, cabs were introduced from Paris, but some ten years earlier, or, say, about 1820. Although its type was not at all settled, the cabriolet was a little, hoodshaped vehicle, quite above its axle, and therefore very high and difficult to get into. It was only intended to carry one passenger, though two slim ones who did not mind squeezing could generally manage to find room. The driver sat on a little shelf or perch on the right hand side, quite outside the body of the machine. This was an English innovation. In Paris driver and fare shared the same seat, and this was continued here for private cabriolets.

The ingenious Mr. Joseph Hansom, who was an architect of Hinckley Leicestershire, however, bethought him in 1834 that if he used larger wheels and suspended the body of the cab between them, the vehicle would hold two easily, or three at a pinch, would balance better, be easier to draw, and safer if the horse fell. Further improved by putting the driver behind and the axle under the seat, the invention soon made its way, and by the fifties the hansom was as much the favorite cab of London as it is today. The original patent is dated Dec. 23, 1834. — Gentleman's Magazine.

HE FELL FROM A FENCE

Little Harry Moore Was Seriously Injured.

SUDDENLY SEIZED BY ILLNESS

William McDonald Almost Died While on His Way Home From the Standard Pottery—He Spent a Bad Night But Will Recover.

Harry, the 14-year-old son of Henry Moore, residing in Church alley near Woodbine, while playing in Thompson's Place near Cook street yesterday, fell on an iron fence, and one of the pickets penetrated his left leg above the knee.

The lad with a number of others had been playing there during the afternoon, and Moore started for home about 5 o'clock. He climbed the fence and was getting down when he slipped which caused the accident. An ambulance call was sent to the fire station, and the injured lad was taken home where the wound was dressed. A piece of cloth was missed from his trousers and at first it was thought to be in the flesh. A probe failed to find it.

At 6:30 o'clock last evening the patrol responded to the second ambulance call. William McDonald, who boards in Grant avenue, was taken suddenly ill while going home from work in the Standard plant and was taken to the office of a physician. The lad complained of cramps and pains about the heart. While being taken home he became cold, and even when two heavy blankets were wrapped about him it had no effect. His condition today was somewhat improved.

Proud of the Capital.

The people of the country are fond of their capital. More than the Washingtonians themselves, they have seen the wonderful progress of Washington, for by visits at intervals, some of them extending over years, they have met with some contrasts which tell the story to the spectator more thoroughly than constant living in the city could do. In different parts of the country we have heard people discuss the growth of Washington with pride and relate the comparisons of their various visits. The man who was there 10 or 20 years ago and who goes again this year takes a tale back home which he never tires of telling.

And not only will Washington have no rival in the sense of competition, but it is destined to be beautiful beyond any other city or any other capital in the world. What has been done is simply an earnest of what is to come. It will be the capital of society as well as politics. Art and education will follow, and already it is a fact that more learned and authoritative men can be gathered in an audience in that city than anywhere else in the country. In fact, Baltimore is glad to be so near Washington. —Baltimore American.

Changes in the Service.

Manager Swaney yesterday put in four new telephones—two for Doctor Larkins, one at the residence of E. H. Sebring, and one for Milo Kirkendall.

A power generator was put in the central office in Wellsville, and hereafter the operator will press a button to call the subscriber instead of turning a crank.

Six New Plugs.

Superintendent Morley and his men are putting in the six new street hydrants recently ordered by council.

They are placed where they will do the most good, and will materially increase the efficiency of the fire department should it become necessary.

The New Vault.

The steel vault to be placed in the First National bank arrived in the city yesterday afternoon. The parts received weigh about 16,000 pounds, and more is yet to come. The work of placing it in the building began this afternoon.

Seriously Ill.

L. H. Mapel who has been ill for some time at his home in Third street was very low this morning. He is suffering with grip and the attending physicians say his recovery is doubtful. Mapel is night watchman at the Cleveland and Pittsburg station.

Lucky Steubenville.

It is understood that the new arrangement whereby Cleveland and Pittsburg trains will use the Panhandle tracks and depot terminals at Steubenville, insures the early erection of a handsome new union station at that point.

Only Two Weeks Longer.

November 30 will be your last day to get U-No remedies at advertising prices.

Nor Anything Else.

Dr. Nansen appears to be booming the arctic regions as a great health resort. According to his testimony, the atmosphere of the frozen zone is absolutely free from all disease germs, and no such things as bacilli or microbes can survive there. It will have to be allowed that this is a handsome recommendation, though it is somewhat hampered by the danger of freezing to death. —Boston Herald.

Don't Like Seal Conferences.

MINNEAPOLIS, Nov. 18.—Congressman H. M. Johnson of North Dakota in an interview declared that the sealing agitation, he believes, is being prolonged by men who are its beneficiaries in salaries and fees and who are in a ring. The Paris tribunal cost this country nearly \$250,000. In all we have spent nearly \$2,500,000 in the seal matter with not \$1 of returns.

Towboat Jim Brown Sunk.

PITTSBURG, Nov. 18.—The towboat Jim Brown, owned by W. H. Brown's Son, struck the outside channel pier of the Pennsylvania railroad bridge, situated about 100 yards below lock No. 2, and sank in ten feet of water. The crew of the boat, 11 in number, had a narrow escape, but the sinking was not attended with any fatality. The men were taken off the partly submerged steamer in yawls and landed safe on shore. The boat was built in 1882 and was valued at about \$15,000, although she cost three times that amount of money.

Judge Reeder's Daughter Married.

EASTON, Pa., Nov. 18.—James W. Fos, district attorney of Northampton county, and Miss Leila B. Reeder, only daughter of Superior Court Judge H. J. Reeder and niece of General Frank Reeder, has been married here.

Smuggler of Tinplate Caught.

BOSTON, Nov. 18.—Special Treasury Agent Converse J. Smith has received word from Special Employee Bunn that he seized at Eastport, Me., a small schooner with a cargo 25 boxes of tinplate that had been smuggled into port.

William A. Foster D. ad.

PHILADELPHIA, Nov. 18.—William A. Foster, auditor of the Huntingdon and Broad Top railroad, has died at his residence, 1511 Frankford avenue. Mr. Foster had been gradually weakening for some time.

Berkman Refused a Pardon.

HARRISBURG, Nov. 18.—The board of pardons has refused the application of Alex. Berkman, the anarchists, who tried to assassinate Henry Frick during the Homestead troubles.

To Settle the Great Strike.

LONDON, Nov. 18.—At the preliminary meeting of the representatives of the striking engineers and their employers, just held, it was agreed to hold a formal conference on Wednesday, Nov. 24. Until then a truce has been agreed upon.

The Weather.

Fair, except light showers near the lakes; northerly winds, becoming southerly.

THE MARKETS.

PITTSBURG, Nov. 17.
WHEAT—No. 1 red, 9 @ 91c; No. 2 red, 88 @ 90c.
CORN—No. 12 yellow ear, 35 1/2 @ 36c; No. 2 shelled, 32 @ 33c; high mixed shelled, 31 @ 31 1/2c.

Klondyke

The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpaired at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

"Klondyke Nuggets"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

NOMINAL OFFER

which places the facts in the possession of our readers. REMEMBER, that our office is the sole distributing point for this locality, having closed exclusive arrangements with Mr. Ladue's publishers.

The cover of the work is beautifully printed in red and gold, the gold showing one of the author's nuggets as nearly as it is possible to reproduce it on paper.

It is easy to secure a copy of "KLONDYKE NUGGETS." Cut out the Coupon and follow instructions.

COUPON FOR "KLONDYKE NUGGETS."

Cut out this Coupon and bring it with you as an evidence that you are a reader of the NEWS REVIEW, and Ten Cents in cash and a copy of "Klondyke Nuggets," by Joseph Ladue, the Bonanza King of the new gold regions, will be handed to you.

Cut out this coupon and send it together with 12c in stamps for clerical work and mailing expenses, and we will send a copy of "Klondyke Nuggets" to your address. Write very clearly and give your name and address in full.

Remember, you should not delay, as you will be unable to secure this valuable work on the gold region in any other way.

Tells the Story.

THE NEWS REVIEW PRESS.

HE FELL FROM A FENCE

Little Harry Moore Was Seriously Injured.

SUDDENLY SEIZED BY ILLNESS

William McDonald Almost Died While on His Way Home From the Standard Pottery—He Spent a Bad Night But Will Recover.

Harry, the 14-year-old son of Henry Moore, residing in Church alley near Woodbine, while playing in Thompson's Place near Cook street yesterday, fell on an iron fence, and one of the pickets penetrated his left leg above the knee.

The lad with a number of others had been playing there during the afternoon, and Moore started for home about 5 o'clock. He climbed the fence and was getting down when he slipped which caused the accident. An ambulance call was sent to the fire station, and the injured lad was taken home where the wound was dressed. A piece of cloth was missed from his trousers and at first it was thought to be in the flesh. A probe failed to find it.

At 6:30 o'clock last evening the patrol responded to the second ambulance call. William McDonald, who boards in Grant avenue, was taken suddenly ill while going home from work in the Standard plant and was taken to the office of a physician. The lad complained of cramps and pains about the heart. While being taken home he became cold, and even when two heavy blankets were wrapped about him it had no effect. His condition today was somewhat improved.

Proud of the Capital.

The people of the country are fond of their capital. More than the Washingtonians themselves, they have seen the wonderful progress of Washington, for by visits at intervals, some of them extending over years, they have met with some contrasts which tell the story to the spectator more thoroughly than constant living in the city could do. In different parts of the country we have heard people discuss the growth of Washington with pride and relate the comparisons of their various visits. The man who was there 10 or 20 years ago and who goes again this year takes a tale back home which he never tires of telling.

And not only will Washington have no rival in the sense of competition, but it is destined to be beautiful beyond any other city or any other capital in the world. What has been done is simply an earnest of what is to come. It will be the capital of society as well as politics. Art and education will follow, and already it is a fact that more learned and authoritative men can be gathered in an audience in that city than anywhere else in the country. In fact, Baltimore is glad to be so near Washington. —Baltimore American.

Changes in the Service.

Manager Swaney yesterday put in four new telephones—two for Doctor Larkins, one at the residence of E. H. Sebring, and one for Milo Kirkendall.

A power generator was put in the central office in Wellsville, and hereafter the operator will press a button to call the subscriber instead of turning a crank.

Six New Plugs.

Superintendent Morley and his men are putting in the six new street hydrants recently ordered by council.

They are placed where they will do the most good, and will materially increase the efficiency of the fire department should it become necessary.

The New Vault.

The steel vault to be placed in the First National bank arrived in the city yesterday afternoon. The parts received weigh about 16,000 pounds, and more is yet to come. The work of placing it in the building began this afternoon.

Seriously Ill.

L. H. Mapel who has been ill for some time at his home in Third street was very low this morning. He is suffering with grip and the attending physicians say his recovery is doubtful. Mapel is night watchman at the Cleveland and Pittsburgh station.

Lucky Steubenville.

It is understood that the new arrangement whereby Cleveland and Pittsburgh trains will use the Panhandle tracks and depot terminals at Steubenville, increases the early erection of a handsome new union station at that point.

Only Two Weeks Longer.

November 30 will be your last day to get U-No remedies at advertising prices.

Nor Anything Else.

Dr. Nansen appears to be booming the arctic regions as a great health resort. According to his testimony, the atmosphere of the frozen zone is absolutely free from all disease germs, and no such things as bacilli or microbes can survive there. It will have to be allowed that this is a handsome recommendation, though it is somewhat hampered by the danger of freezing to death. —Boston Herald.

Don't Like Seal Conferences.

MINNEAPOLIS, Nov. 18.—Congressman H. M. Johnson of North Dakota in an interview declared that the sealing agitation, he believes, is being prolonged by men who are its beneficiaries in salaries and fees and who are in a ring. The Paris tribunal cost this country nearly \$250,000. In all we have spent nearly \$2,500,000 in the seal matter with not \$1 of returns.

Towboat Jim Brown Sank.

PITTSBURG, Nov. 18.—The towboat Jim Brown, owned by W. H. Brown's Son, struck the outside channel pier of the Pennsylvania railroad bridge, situated about 100 yards below lock No. 2, and sank in ten feet of water. The crew of the boat, 11 in number, had a narrow escape, but the sinking was not attended with any fatality. The men were taken off the partly submerged steamer in yawls and landed safe on shore. The boat was built in 1882 and was valued at about \$15,000, although she cost three times that amount of money.

Judge Feeder's Daughter Married.

EASTON, Pa., Nov. 18.—James W. Fos, district attorney of Northampton county, and Miss Leila B. Reeder, only daughter of Superior Court Judge H. J. Reeder and niece of General Frank Reeder, has been married here.

Smuggler of Tinplate Caught.

BOSTON, Nov. 18.—Special Treasury Agent Converse J. Smith has received word from Special Employee Bunn that he seized at Eastport, Me., a small schooner with a cargo 25 boxes of tinplate that had been smuggled into port.

William A. Foster D. ad.

PHILADELPHIA, Nov. 18.—William A. Foster, auditor of the Huntingdon and Broad Top railroad, has died at his residence, 1511 Frankford avenue. Mr. Foster had been gradually weakening for some time.

Berkman Refused a Pardon.

HARRISBURG, Nov. 18.—The board of pardons has refused the application of Alex. Berkman, the anarchist, who tried to assassinate Henry Frick during the Homestead troubles.

To Settle the Great Strike.

LONDON, Nov. 18.—At the preliminary meeting of the representatives of the striking engineers and their employers, just held, it was agreed to hold a formal conference on Wednesday, Nov. 24. Until then a truce has been agreed upon.

The Weather.

IT'S LISBON'S TURN NOW

To Care For the Little Ones at the Home.

VERY NICE CHRISTMAS PRESENTS

Are Expected From the County Seat to Make the Children Remember the Great Occasion—Superintendent Southworth Following His Custom.

A number of years ago Superintendent M. M. Southworth, of the Fairmount children's home, asked a town in this county to make Christmas a pleasant one for his little charges. The request was complied with so cheerfully that Mr. Southworth has continued the custom, taking the principal towns in turn.

Several years ago Liverpool was selected, and its response was so generous that the children were given a delightful day with the splendid collection of presents provided. Wellsville came next and did well. Now the county seat has been chosen, and its turn will come next Christmas. Mr. and Mrs. Southworth sincerely hope that the good people of Lisbon will open their hearts and treasure boxes and send the little ones that which will give them a pleasant day.

CLERICAL FORCE COMPLETED.

W. E. Dunlap Will Be Bookkeeper at the Citizens.

The committee having in charge the selection of a clerical force to aid Cashier H. H. Blythe at the Citizens' National bank have elected W. E. Dunlap to the position of bookkeeper. Mr. Dunlap has resigned his position at the Goodwin pottery, and will be succeeded by Henry Horst.

Mr. Dunlap was selected from a large number of applicants, and his many friends in the city appreciate the compliment given him. He is capable and trustworthy, and will doubtless fill the place to the entire satisfaction of the bank's officers and patrons. There are few young men in the city more popular, and everybody wishes him unbounded success.

SPECIAL MEETINGS

Are Taking Many Persons to the Churches.

The First Presbyterian church was crowded last night. Reverend Van Fossen delivered a splendid sermon. The gentleman will preach again tonight. A feature of the meeting is the music, and it is greatly enjoyed by those who attend.

Reverend McMurray last evening at the Second U. P. church delivered an eloquent and logical sermon on the subject, "Come." The services are largely attended, and it is thought will be productive of much good.

PAY YOUR TAXES.

I will be in East Liverpool, at the Potters' Building and Savings company Wednesday and Thursday, Nov. 17 and 18, for the purpose of collecting taxes due. Those interested will please make note.

I. B. CAMERON, County Treasurer.

Teeth Filled With Glass.

The latest use for glass is instead of gold as a material for stopping decayed teeth. It answers splendidly and is far less conspicuous than the yellow metal. Of course it is not ordinary glass, but is prepared by some new patented process which renders it soft and malleable.

Glass, too, is being extensively used for church bells. It can be toughened so that there is no risk of its cracking and the tone is said to be, beyond anything yet invented, perfect, soft and sonorous.

The color of this new bell glass is a deep, rich green.—Philadelphia Record.

Will Soon Be Well.

Hugh Maley, who was hurt at the Cleveland and Pittsburgh station some weeks ago, is improving so well that he will soon be able to be out. Physicians made an examination of the injured limb yesterday, and stated that from indications the leg would not be shorter than the other.

Odd Fellows Take Notice.

All Odd Fellows, visiting members and members of home lodge with their ladies, are most cordially invited to attend social tonight at I. O. O. F. hall, corner Fifth and Washington streets.

COMMITTEE.

Bright and Spicy—the NEWS REVIEW

TROUBLED BY A GHOST.

It May Cause the Abandoning of a Life Saving Station.

One of the life saving stations on the beach, 20 miles below San Lucia, Fla., is to be abandoned, and it is stated on account of a ghost that walks there and is not to be laid by any means at the command of the men. The station is a state institution and has been maintained there mostly by the people to aid shipwrecked mariners, as it is on a very dangerous part of the coast. Two years ago a vessel was wrecked near there, and only one passenger escaped, that being a very handsome girl of about 18.

Will Smith and Henry Johnson, both at the station, aided in her rescue, and both promptly fell in love with her. Last year she married Smith, and in consequence Johnson grew to be surly and morose and seemed to think that he had been slighted. Not long after that the young wife was missing one day, and the week afterward her body was found in the sand back of the station drowned.

Johnson after that became very taciturn and moody, and the men seemed to think that he was almost out of his mind, although no suspicion was attached to him. A month or so ago stories began to come up here of a ghost walking at the station, and shortly after that came the story of how Johnson had killed himself after confessing to the drowning of Mrs. Smith.

Captain Dodd, who tells the story, says others had heard of this spirit wandering around, and he had seen what he thought was a ghost twice on the beach. It appeared to be the indistinct form of a woman floating through the air a few feet above the earth, clasping her hands and weeping. "I did not tell of it for several days, until I found out that others had seen it as well as myself. Sometimes it came up near the station, and twice I heard wild and unearthly screams at midnight." By a singular coincidence each time Johnson was outdoors. He came in then with blanched face and staring eyes, and rushing to his bunk plunged beneath the clothes and refused to speak to any one.—Cincinnati Enquirer

FORAKER'S NEW HOME.

One of the Finest in Washington—The Senator and His Wife.

Senator Foraker of Ohio is building one of the largest and finest residences in Washington in the very midst of the new fashionable residence quarter, at the corner of Sixteenth street and Madison place. The house promises to be a beautiful specimen of architecture and is large enough to accommodate a considerable colony of the senator's friends. The material is yellow fire brick, trimmed with gray sandstone. The interior is arranged for entertaining, and in the basement are a number of rooms which the senator has planned for offices for himself and clerks.

Senator and Mrs. Foraker have not been known as society people. While governor of Ohio he was hospitable and performed all the social duties required of him in a manner beyond criticism, but after his retirement from office he removed to Cincinnati, where he lived quietly, devoting himself to his profession and picking up business enough to keep him busy and fees enough to make him rich, while Mrs. Foraker devoted herself to the education of her children and the care of an invalid child, to whom both she and the senator have shown the most touching devotion. Since their arrival in Washington they have not changed their habits of life, but have lived very quietly at the Arlington hotel. The arrangement of the new house, however, looks as if they were intending to meet their share of social obligations in Washington.—Chicago Record.

CRAZY TO GO TO ALASKA.

Three Sailors Tried to Burn Their Vessel In Order to Escape.

The whaler John and Winthrop arrived in San Francisco recently with a queer story of an attempt of three of the crew to burn the vessel and go to the Klondike. On Aug. 19, near midnight, two fires were discovered, but were put out without much damage. Investigation showed that three sailors, J. H. Krueger, Harry Jones and Osborn Dugman, had started the fires with the purpose of escaping in one of the small boats to the mainland and then striking out for the Klondike.

Krueger was the ringleader, and the other two have made a full confession of the plot into which Krueger induced them to enter. A few days before the fires the whaler spoke a fellow whaling vessel, the Gayhead, and heard the first news of the rich strikes near Dawson. This news appeared to make Krueger crazy. He talked of nothing else, and the plot to burn the ship was the result. When the fires were set, they were about 100 miles from St. Michael's.—New York Sun.

Valuable Moments.

The chilling winds are blowing, And the autumn days are going. Soon, ah, soon, it will be snowing. And icicles will be growing On the whiskers of the men who have to face the wintry blast. But the thing that makes me saddest. Or perhaps I should say maddest. Is the fact that at this juncture I should get a nasty puncture And not be able to make use of all these moments while they last!—Cleveland Leader.

NARRATIVE OF A SPY.

CRIME FOR WHICH EX-CAPTAIN DREYFUS WAS CONVICTED.

Information Supplied by Him to the German Government Was of a Very Serious Character—Many People in France Still Believe Him Innocent.

The romance which from time to time is thrown around the conviction of ex-Captain Dreyfus is very interesting, but unfortunately for the convict it is only a romance. The idea of his innocence was probably created by a French novel that appeared some time before his arrest and the hero of which was a captain in the French army, who was the victim of a conspiracy. Singularly enough the story fitted the case of Dreyfus very well except in one very important point, his innocence.

But the impressionable composition of many French minds assumed a form of suspicion in regard to the justice of the traitor's conviction, a suspicion whose only real foundation was the fact that his trial was conducted with closed doors. All sorts of sensational stories were told of the condemned man, especially in the English papers, in which his escape, or, rather, his many escapes, were detailed in a style worthy of the yellowest journalism.

The fact is that Dreyfus was convicted on the clearest evidence. There was no possibility of any conspiracy against him. He was caught at his infamous work and only escaped the death sentence by the law which fails to prescribe capital punishment for treason in time of peace.

Technically Dreyfus was not a traitor; he was simply a German spy and a dangerous enemy of France. His family was German to the core, although their home was in Alsace. At the close of the Franco-German war, when it was optional with them to become citizens of the French republic or to be subjects of the emperor of Germany, they all, with one exception, the wretched pris-

soners to be in the Tuscan, and altar, pulpit and canopy in the Ionic, order Washington was the purchaser of pew No. 5, for £36 10s.

The old records show some curious entries: Two pounds ten shillings was collected of Bryan Fairfax in 1770 for "killing deer out of season," and Thomas Lewis was fined 5 shillings for "hunting on the Sabbath." The money thus collected went for the support of the poor, the lame and the blind, and buried the dead. The old records show that seats were assigned according to rank or for special reasons. One Susanab Edwards officiated as sexton, to the entire satisfaction of the congregation. The old edifice had neither chimney nor fireplace until 1812, foot stoves furnishing the only warmth. The most conspicuous families in the early history of Virginia were worshippers at Christ church—the Adamses, Herberts, Custises, Blackburns, Carlyles, Muirs, Broadwaters, Alexanders and others equally prominent.

General Robert E. Lee attended Sunday school and was baptized and confirmed in this church, and a tablet to his memory adorns the eastern wall.

During the occupancy of Alexandria by the Federal troops the rector and many of the parish fled within the Confederate lines. The church was held by the military authorities. A large mound in the churchyard marks the resting place of 34 Confederate soldiers who died in Federal hospitals in Alexandria.—Harper's Weekly

Chinese Conservatism.

Many tales have been told of the unwillingness of the Chinese to see the advantages of the introduction of the telegraph into China. A telegraph journal now adds to the number by the recital of an incident connected with the first cable along the coast from Peking to Shanghai. Soon after the cable was laid a lottery drawing came off in Peking, in which many of the residents of Shanghai held tickets. One of the gamblers so far overcame his distrust of the cable as to have the winning numbers sent him, and he bought the tickets bearing them from his more skeptical townsmen, realizing a small fortune on the transaction. Not long after there was a scanty crop of rice in the upper provinces, and a Shanghai merchant telegraphed to Peking instructions to buy heavily. The ultimate result was that he sold out at an immense profit and retired on an independence. By degrees it began to dawn on the Chinese that it was just as well not to tear down telegraph wires, as the telegraph was a fairly good thing to have around.

A Peculiar Optical Illusion.

A correspondent of a photographic journal, in speaking of the special interest that attaches to the Roentgen rays among photographers, who often are not in a position to invest in elaborate and expensive sets of apparatus, says it is not generally known that by means of a very simple optical illusion an almost perfect imitation of the wonders of radiography can be shown without the trouble and expense of induction coils, tubes or fluorescent screens. All that is necessary is to take a small feather from a pheasant or turkey and holding it close to the eye look through the radiating ribs at the end of the feather at the fingers of the hand held up toward the sky or against the window. The flesh of the fingers will then appear to be transparent, with the opaque bone running down in the center, as shown by the true radiograph. If it is desired to exhibit the phenomenon by gaslight, a piece of ground glass must be held in front of the flame to diffuse the light.

More Lives Than a Cat.

This is an inscription on a marble slab over a grave at Green Bay: "Dieu sur tout Here lies the Body of Lewis Galdy Esq. who departed this life at Port Royal the 22nd December 1739 aged 80. He was born at Montpelier in France but left that country for his Religion and came here to settle in this Island where he was swallowed up in the Great Earthquake in the year 1692 and by the Providence of God was by another shock thrown into the Sea and miraculously saved by swimming until a Boat took him up. He lived many years after in great Reputation Beloved by all who knew him and much Lamented at his death."—Notes and Queries.

Trouble Enough.

"Well, prisoner," said the judge, "if you have anything to say, the court will hear you." "I'd rather be excused, your honor," replied the prisoner. "If I said what I'd like to say, I'd be committed for contempt of court, and I've got trouble enough without that."—Harper's Bazar.

The Time of Meeting.

"Meet me in the key of G," said a musician to his friend. "What time will that be?" asked the friend. "At 1 sharp," replied the musician, and he went out alone into the deep, dark night.—Cleveland Plain Dealer.

Iron Ships Lighter Than Wooden Vessels.

An iron ship weighs about 20 per cent less than a wooden ship of the same dimensions. Its walls are thinner, and it will carry about 10 per cent more cargo on less draft of water.—New York Sun.

EX-CAPTAIN ALBERT DREYFUS.

oner, took the German side. The young man wanted to make money and was not scrupulous in regard to the manner in which he might secure it. So he became a spy, joined the French army, and, with the persistent energy which belonged to him, managed at last to reach the bureau of the general staff, where he was employed as a clerk. Soon important documents were missing, and suspicion at last fell upon the rather morose but extremely diligent officer. Copies of documents of vital importance were found in his possession. The copies were in his own handwriting, and he was actually found at work upon one of them, which, when finished, he put into his valise and carried away to a place where he had a rendezvous with an officer who was said to be attached to the German embassy in Paris. When this officer appeared upon the scene, the detectives immediately arrested Dreyfus and the incriminating document was secured.

This is all that the outside public was allowed to know of the case. The contents of the papers were not revealed. Many wild stories were told about them, but up to the present time nobody outside of the general staff really knows anything about them. It has been said that the information supplied by Dreyfus to the German government was of so serious a character that the entire plan for the mobilization of the French army had to be altered and that the record of his trial contained a state secret the revelation of which would immediately be followed by war between France and Germany.

But, after all, there are many people in France who believe that Dreyfus is innocent. M. Scheurer-Kestner, the vice president of the French senate, has repeatedly expressed the belief that Dreyfus is the victim of a conspiracy, while the majority of senators and members of the assembly are sure that it is M. Scheurer-Kestner who is the victim of a delusion or of a machination.—New York Sun.

A Famous Old Church.

At Alexandria, Va., stands an ancient church in nearly its original condition, Christ church, whose architect bore the name of Wren—not, however, Sir Christopher. It was completed in 1773. In November, 1766, the vestry, of whom George Washington was one, levied an assessment of 31,185 pounds of tobacco to build two churches, Christ church being one. The specifications called for shingles of juniper, mortar to be two-thirds lime and one-third sand, the

IT'S LISBON'S TURN NOW

To Care For the Little Ones at the Home.

VERY NICE CHRISTMAS PRESENTS

Are Expected From the County Seat to Make the Children Remember the Great Occasion—Superintendent Southworth Following His Custom.

A number of years ago Superintendent M. M. Southworth, of the Fairmount children's home, asked a town in this county to make Christmas a pleasant one for his little charges. The request was complied with so cheerfully that Mr. Southworth has continued the custom, taking the principal towns in turn. Several years ago Liverpool was selected, and its response was so generous that the children were given a delightful day with the splendid collection of presents provided. Wellsville came next and did well. Now the county seat has been chosen, and its turn will come next Christmas. Mr. and Mrs. Southworth sincerely hope that the good people of Lisbon will open their hearts and treasure boxes and send the little ones that which will give them a pleasant day.

CLERICAL FORCE COMPLETED.

W. E. Dunlap Will Be Bookkeeper at the Citizens.

The committee having in charge the selection of a clerical force to aid Cashier H. H. Blythe at the Citizens' National bank have elected W. E. Dunlap to the position of bookkeeper. Mr. Dunlap has resigned his position at the Goodwin pottery, and will be succeeded by Henry Host.

Mr. Dunlap was selected from a large number of applicants, and his many friends in the city appreciate the compliment given him. He is capable and trustworthy, and will doubtless fill the place to the entire satisfaction of the bank's officers and patrons. There are few young men in the city more popular, and everybody wishes him unbounded success.

SPECIAL MEETINGS

Are Taking Many Persons to the Churches.

The First Presbyterian church was crowded last night. Reverend Van Fossen delivered a splendid sermon. The gentleman will preach again tonight. A feature of the meeting is the music, and it is greatly enjoyed by those who attend.

Reverend McMurray last evening at the Second U. P. church delivered an eloquent and logical sermon on the subject, "Come." The services are largely attended, and it is thought will be productive of much good.

PAY YOUR TAXES.

I will be in East Liverpool, at the Potters' Building and Savings company Wednesday and Thursday, Nov. 17 and 18, for the purpose of collecting taxes due. Those interested will please make note.

I. B. CAMERON, County Treasurer.

Teeth Filled With Glass.

The latest use for glass is instead of gold as a material for stopping decayed teeth. It answers splendidly and is far less conspicuous than the yellow metal. Of course it is not ordinary glass, but is prepared by some new patented process which renders it soft and malleable.

Glass, too, is being extensively used for church bells. It can be toughened so that there is no risk of its cracking and the tone is said to be, beyond any thing yet invented, perfect, soft and sonorous.

The color of this new bell glass is a deep, rich green.—Philadelphia Record.

The palace of the king of Siam is enclosed in high white walls which are a mile in circumference. Within them are contained temples, public offices, seraglios, stables for the sacred elephants, accommodation for 1,000 troops, cavalry, artillery, war elephants and arsenal and a theater.

Will Soon Be Well.

Hugh Maley, who was hurt at the Cleveland and Pittsburgh station some weeks ago, is improving so well that he will soon be able to be out.

Physicians made an examination of the injured limb yesterday, and stated that from indications the leg would not be shorter than the other.

Odd Fellows Take Notice.

All Odd Fellows, visiting members and members of home lodge with their ladies, are most cordially invited to attend social tonight at I. O. O. F. hall, corner Fifth and Washington streets.

Bright and Spicy—the NEWS REVIEW

TROUBLED BY A GHOST.

It May Cause the Abandoning of a Life Saving Station.

One of the life saving stations on the beach, 20 miles below San Lucia, Fla., is to be abandoned, and it is stated on account of a ghost that walks there and is not to be laid by any means at the command of the men. The station is a state institution and has been maintained there mostly by the people to aid shipwrecked mariners, as it is on a very dangerous part of the coast. Two years ago a vessel was wrecked near there, and only one passenger escaped, that being a very handsome girl of about 18.

Will Smith and Henry Johnson, both at the station, aided in her rescue, and both promptly fell in love with her. Last year she married Smith, and in consequence Johnson grew to be surly and morose and seemed to think that he had been slighted. Not long after that the young wife was missing one day, and the week afterward her body was found in the sound back of the station drowned.

Johnson after that became very taciturn and moody, and the men seemed to think that he was almost out of his mind, although no suspicion was attached to him. A month or so ago stories began to come up here of a ghost walking at the station, and shortly after that came the story of how Johnson had killed himself after confessing to the drowning of Mrs. Smith.

Captain Dodd, who tells the story, says others had heard of this spirit wandering around, and he had seen what he thought was a ghost twice on the beach. It appeared to be the indistinct form of a woman floating through the air a few feet above the earth, clasping her hands and weeping. "I did not tell of it for several days, until I found out that others had seen it as well as myself. Sometimes it came up near the station, and twice I heard wild and unearthly screams at midnight." By a singular coincidence each time Johnson was outdoors. He came in then with blanched face and staring eyes, and rushing to his bunk plunged beneath the clothes and refused to speak to any one.—Cincinnati Enquirer

FORAKER'S NEW HOME.

One of the Finest in Washington—The Senator and His Wife.

Senator Foraker of Ohio is building, one of the largest and finest residences in Washington in the very midst of the new fashionable residence quarter, at the corner of Sixteenth street and Madison place. The house promises to be a beautiful specimen of architecture and is large enough to accommodate a considerable colony of the senator's friends. The material is yellow fire brick, trimmed with gray sandstone. The interior is arranged for entertaining, and in the basement are a number of rooms which the senator has planned for offices for himself and clerks.

Senator and Mrs. Foraker have not been known as society people. While governor of Ohio he was hospitable and performed all the social duties required of him in a manner beyond criticism, but after his retirement from office he removed to Cincinnati, where he lived quietly, devoting himself to his profession and picking up business enough to keep him busy and fees enough to make him rich, while Mrs. Foraker devoted herself to the education of her children and the care of an invalid child, to whom both she and the senator have shown the most touching devotion. Since their arrival in Washington they have not changed their habits of life, but have lived very quietly at the Arlington hotel. The arrangement of the new house, however, looks as if they were intending to meet their share of social obligations in Washington.—Chicago Record.

CRAZY TO GO TO ALASKA.

Three Sailors Tried to Burn Their Vessel In Order to Escape.

The whaler John and Winthrop arrived in San Francisco recently with a queer story of an attempt of three of the crew to burn the vessel and go to the Klondike. On Aug. 19, near midnight, two fires were discovered, but were put out without much damage. Investigation showed that three sailors, J. H. Krueger, Harry Jones and Osborn Digman, had started the fires with the purpose of escaping in one of the small boats to the mainland and then striking out for the Klondike.

Krueger was the ringleader, and the other two have made a full confession of the plot into which Krueger induced them to enter. A few days before the fires the whaler spoke a fellow whaling vessel, the Gayhead, and heard the first news of the rich strikes near Dawson. This news appeared to make Krueger crazy. He talked of nothing else, and the plot to burn the ship was the result. When the fires were set, they were about 100 miles from St. Michael's.—New York Sun.

Valuable Moments.

The chilling winds are blowing, and the autumn days are going. Soon, ah, soon, it will be snowing. And icicles will be growing on the whiskers of the men who have to face the winter blast. oner, took the German side. The young man wanted to make money and was not scrupulous in regard to the manner in which he might secure it. So he became a spy, joined the French army, and, with the persistent energy which belonged to him, managed at last to reach the bureau of the general staff, where he was employed as a clerk. Soon important documents were missing, and suspicion at last fell upon the rather morose but extremely diligent officer. Copies of documents of vital importance were found in his possession. The copies were in his own handwriting, and he was actually found at work upon one of them, which, when finished, he put into his valise and carried away to a place where he had a rendezvous with an officer who was said to be attached to the German embassy in Paris. When this officer appeared upon the scene, the detectives immediately arrested Dreyfus and the incriminating document was secured.

This is all that the outside public was allowed to know of the case. The contents of the papers were not revealed. Many wild stories were told about them, but up to the present time nobody outside of the general staff really knows anything about them. It has been said that the information supplied by Dreyfus to the German government was of so serious a character that the entire plan for the mobilization of the French army had to be altered and that the record of his trial contained a state secret the revelation of which would immediately be followed by war between France and Germany.

But, after all, there are many people in France who believe that Dreyfus is innocent. M. Scheurer-Kestner, the vice president of the French senate, has repeatedly expressed the belief that Dreyfus is the victim of a conspiracy, while the majority of senators and members of the assembly are sure that it is M. Scheurer-Kestner who is the victim of a delusion or of a machination.—New York Sun.

A Famous Old Church.

At Alexandria, Va., stands an ancient church in nearly its original condition, Christ church, whose architect bore the name of Wren—not, however, Sir Christopher. It was completed in 1773. In November, 1766, the vestry, of whom George Washington was one, levied an assessment of \$1,185 pounds of tobacco to build two churches, Christ church being one. The specifications called for shingles of juniper, mortar to be two-thirds lime and one-third sand, the

pediments to be in the Tuscan, and altar, pulpit and canopy in the Ionic, order. Washington was the purchaser of new No. 5, for £36 10s.

The old records show some curious entries: Two pounds ten shillings was collected of Bryan Fairfax in 1770 for "killing deer out of season," and Thomas Lewis was fined 5 shillings for "hunting on the Sabbath." The money thus collected went for the support of the poor, the lame and the blind, and buried the dead. The old records show that seats were assigned according to rank or for special reasons. One Susanab Edwards officiated as sexton, to the entire satisfaction of the congregation. The old edifice had neither chimney nor fireplace until 1812, foot stoves furnishing the only warmth. The most conspicuous families in the early history of Virginia were worshippers at Christ church—the Adamses, Herberts, Custises, Blackburns, Carlyles, Muirs, Broadwaters, Alexanders and others equally prominent.

General Robert E. Lee attended Sunday school and was baptized and confirmed in this church, and a tablet to his memory adorns the eastern wall.

During the occupancy of Alexandria by the Federal troops the rector and many of the parish fled within the Confederate lines. The church was held by the military authorities. A large mound in the churchyard marks the resting place of 34 Confederate soldiers who died in Federal hospitals in Alexandria.—Harper's Weekly

Chinese Conservatism.

Many tales have been told of the unwillingness of the Chinese to see the advantages of the introduction of the telegraph into China. A telegraph journal now adds to the number by the recital of an incident connected with the first cable along the coast from Peking to Shanghai. Soon after the cable was laid a lottery drawing came off in Peking, in which many of the residents of Shanghai held tickets. One of the gamblers so far overcame his distrust of the cable as to have the winning numbers sent him, and he bought the tickets bearing them from his more skeptical townsmen, realizing a small fortune on the transaction. Not long after there was a scanty crop of rice in the upper provinces, and a Shanghai merchant telegraphed to Peking instructions to buy heavily. The ultimate result was that he sold out at an immense profit and retired on an independency. By degrees it began to dawn on the Chinese that it was just as well not to tear down telegraph wires, as the telegraph was a fairly good thing to have around.

A Peculiar Optical Illusion.

A correspondent of a photographic journal, in speaking of the special interest that attaches to the Roentgen rays among photographers, who often are not in a position to invest in elaborate and expensive sets of apparatus, says it is not generally known that by means of a very simple optical illusion an almost perfect imitation of the wonders of radiography can be shown without the trouble and expense of induction coils, tubes or fluorescent screens. All that is necessary is to take a small feather from a pheasant or turkey and holding it close to the eye look through the radiating ribs at the end of the feather at the fingers of the hand held up toward the sky or against the window. The flesh of the fingers will then appear to be transparent, with the opaque bone running down in the center, as shown by the true radiograph. If it is desired to exhibit the phenomenon by gaslight, a piece of ground glass must be held in front of the flame to diffuse the light.

More Lives Than a Cat.

This is an inscription on a marble slab over a grave at Green Bay: "Dieu sur tout Here lyes the Body of Lewis Galdy Esq who departed this life at Port Royal the 22nd December 1739 aged 80. He was born at Montpelier in France but left that country for his Religion and came here to settle in this Island where he was swallowed up in the Great Earthquake in the year 1692 and by the Providence of God was by another shock thrown into the Sea and miraculously saved by swimming until a Boat took him up. He lived many years after in great Reputation Beloved by all who knew him and much lamented at his death."—Notes and Queries.

Trouble Enough.

"Well, prisoner," said the judge, "if you have anything to say, the court will hear you."

"I'd rather be excused, your honor," replied the prisoner. "If I said what I'd like to say, I'd be committed for contempt of court, and I've got trouble enough without that."—Harper's Bazar.

The Time of Meeting.

"Meet me in the key of G," said a musician to his friend.

"What time will that be?" asked the friend.

"At 1 sharp," replied the musician, and he went out alone into the deep, dark night.—Cleveland Plain Dealer.

Iron Ships Lighter Than Wooden Vessels.

An iron ship weighs about 20 per cent less than a wooden ship of the same dimensions. Its walls are thinner, and it will carry about 10 per cent more cargo on less draft of water.—New York Sun.

Cleveland & Pittsburgh Div. Pennsylvania Lines.

IMPORTANT TO ADVERTISERS.

Merchants and business men must have advertisements in this office on the evening previous to insertion in this paper. This rule is imperative, and is an absolute necessity resulting in good to paper and patron.

The largest bonafide "paid" general circulation of any daily published in East Liverpool. Advertisers will make note.
HARRY PALMER,
Manager.

LOCAL BREVITIES.

The Elks will initiate three candidates at their meeting this evening.

City Treasurer Herbert is spending the day fishing at Smith's Ferry.

Joseph Turnbull and Henry Joseph are in Pittsburg today on business.

The Woman's Bible society are this afternoon holding their annual meeting.

Edward Leslie, a packer at the Sebring plant, is ill at his home with malaria.

The Rugby and association football teams will practice this evening at West End park.

Freight business was brisk at the depot yesterday and a large amount of business was handled.

The board of education will meet tomorrow evening. There is no special business to be transacted.

The new counters for the First National bank have been stored in a vacant store room in Seventh street.

Mrs. Carrie B. Wilson this afternoon entertained a number of lady friends at her home in West Market street.

Manager Swaney and Assistant Kelly are in Salineville today improving the telephone service in that village.

E. L. Douglas, of Kilbourn, S. D., arrived in the city this morning. He will make his home in this place.

George Gardner, of Pittsburg, spent the evening in the city visiting friends. He returned home on the noon train.

Keep your eyes open when you buy goods of any sort. Refuse all substitutes for standard advertised articles.

J. M. Mason has entered suit against J. O. Bryarty for \$3.75 claimed due for shade trees. The case will be heard Monday.

Typewriters are now in use at the telegraph office. Night Operator Harry Brookes is the first one to use the machine in this city.

Captain Myers, of Fifth street, was taken suddenly ill last night after returning from Lisbon, and was confined to his room today.

All the early trains were late this morning. The 8:40 train west was delayed 20 minutes at Ralston crossing awaiting an eastbound drag.

A portable drilling machine was placed in a car at the Walnut street yards this morning and shipped to New Brighton. It stood in Cook street all night.

Several young people from the city attended the wedding of Mrs. Mary E. Hoff and J. H. Flannery which took place last evening at Columbiana.

Misses Eva and Belle Whitehill, of Beaver, and Miss Lottie Ramsey, of Hookstown, are the guests of Mr and Mrs. J. W. Stewart, West Market street.

Thomas Bryan and Ambrose Webber spent yesterday hunting on a farm near Calcutta. During the entire day Bryan succeeded in getting but one small pheasant.

Mrs. Smith, mother of Mrs. Ann E. Albert, formerly of this city, died at her home in Bridgeport, Tuesday, November 9. The lady was well known in this city.

The Princess at noon today took an empty barge from the Broadway wharf to New Cumberland. The barge was brought here Monday loaded with salt from Pomeroy.

A force of men were put to work this morning repairing the street railway in Washington street. All the joints were tightened, and in some instances new rails were laid.

Two ladies from Pittsburg were in the city yesterday looking for a location to open a novelty store. They were unable to find a suitable room, and departed this morning for Wheeling.

The household effects of Edwin Cooper of East End were sent to Empire yesterday. The goods were somewhat damaged in a wreck at the Wellsville shop yards yesterday afternoon.

The members of the carpenters' union in this city will give their annual banquet in their rooms in West Market street, Thursday, Dec. 2. All arrangements were completed last evening.

Reverend Whitehead, formerly pastor of the Methodist Protestant church in this city, but now doing mission work in the conference, is here on business connected with the Laymen's bureau. The gentleman resides in Braddock.

THE SURPRISE CLOTHING STORE
